Army Affirms: "No Favoritism"; Security Clearances Are Problem

A TOP Army official has declared emphatically that "all promotions of company and field grade officers during the last five years at least" have been the result of routine selection board action.

The Army has denied categorically that any "favoritism" was involved in the promotion to lieutenant colonel of eight majors whose selections were never announced—not even to the individuals concerned.

Seeking to strike down any notions that there may have been irregularities in promotion procedures, an Army spokesman told THE JOURNAL that a major general in the office of the Deputy Chief of Staff for Personnel personally had checked into the 1959 selections to lieutenant colonel and had ascertained that the selection board—before its adjournment—had recommended 133 officers from the secondary or "outstanding" zone. This compares with the 125 names which were released when the selection lists were made public.

The Army has declined to make available the names of the selection board members. This is in accordance with its long-time policy of withholding such information.

An Army spokesman, who said he had

been briefed in detail on the matter of the eight "silent" selections, stated repeatedly that the only reason the names were withheld at the time the other selections from the basic and secondary zones were made public was because routine security checks had not been completed.

The Army spokesman then revealed
—Continued on page 5

COMPLETE LIST?

The Journal regrets that it is not possible to advise our Army readers at this time whether the announced list of selections for temporary lieutenant colonel, published in the issue of 20 August, is the complete list.

The Army was asked last week and again this week to state the exact number of "secondary zone" selections made by the board. The answer last week was "approximately 144." Despite a second inquiry, no further clarification was made before our deadline this week.

As was stated in last week's issue, The Journal will make it a practice to ask the Army each time a selection list is announced whether or not it includes all the names of those recommended by the board. This is not necessary in the other Services, because their practice is to announce all promotion selections simultaneously.

Pay Equity Faces Rough Road On Hill

THREE years after an expedient compromise with historic military principles was made, thousands of retired Service people face continuing pay inequities.

There is no basis at this time to forecast that 1961 will see the enactment of remedial legislation.

One moral of the story now must be plain to Pentagon leaders. When a temporary compromise of principle is made, the effects can be of long duration.

It was in 1957, when the Cordiner

The Word On USCOA

Military men who must make a decision concerning the Uniformed Services Contingency Option Act will be helped by the counsel of two experts. Their report gives authoritative information concerning financial protection for survivors.

Page 14

Dual Pay Ban Order

Service personnel officers this week took steps to implement dual compensation restrictions on disability retired Reserve officers ordered by the Comptroller General. As of 1 November, Army and Air Force Reservists retired for disability under the Act of 3 April 1939 (10 U.S.C. 456, 1946 edition) will be subject to the dual compensation provisions of the Economy Act of 1932. Reservists retired under other provisions of law are not affected.

No Navy or Marine Corps personnel are affected.

Complicating work on the new decision, Pentagon officials said, were erroneous published reports that all Reservists would be placed under the dual compensation ban while working for the Government. A full and accurate report on the Comptroller's decision was published in last week's JOURNAL. The text of the Comptroller's decision is published on page 11.

COMMANDERS REPORT:

Korea Logistical Command Reacts To Increased Communist Capabilities

BY
BRIG. GEN. JAMES A. RICHARDSON, III,
Commanding, 7th Logistical Command (C)

WHEN the Armistice Agreement was negotiated in Korea and the fighting units halted "in place," the United Nations Command cautiously began the transition from active combat to peace-time preparedness. Little long-range planning was initiated at that time in view of the ever present possibility of a resumption of the fighting.

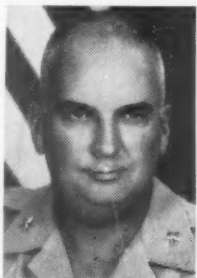

During this period of "armed truce," since the end of overt hostilities in 1953, considerable change has occurred on both sides of the 38th Parallel. The Communists, both North Korean and Chinese, have added weapons and aircraft, and built airfields. As a result, their capabilities have increased.

In order to offset these improved capabilities, certain adjustments have

been necessary, within the United Nations Command, to retain the balance of power. These changes by the Communists and our own forces demanded many adjustments in logistical support capability. Vulnerability of lines of communication, supply points, storage areas and depots must be constantly evaluated in light of the prospective enemy's capability. Adjustments within our own forces must be considered in their effect on logistical requirements.

Soon after his assumption of command of United Nations Forces in Korea, General Carter B. Magruder, one of the Army's foremost logisticians, directed a complete study of our logistical position. As a result of this study and his per-

All-Service Target Team At Offutt

BRIG. Gen. Berton E. Spivy, jr., USA, will head the JCS Liaison to the Joint Strategic Target Planning group at Offutt AFB, Neb., headed by General Thomas S. Power, CinC of the Strategic Air Command.

He takes this assignment after a short tour as Commander of the 1st Field Artillery Missile Brigade, Ft. Sill, Okla.

Also with the JCS Liaison unit will be Lt. Col. Donald W. Mather, USA.

Army personnel assigned to the targeting group include: Colonels Charles B. Hines, William J. A. Hussey; Lieutenant Colonels Bernard B. Beck, and Willard A. Muir; Majors Robert F. Fair, Robert P. Wayne, John D. Lewis, Martin W. Dettmer and Charles J. Gentry; and Capt. James E. Hays.

In addition to VADM. Edward N. Parker, recently reassigned from Chief of the Defense Atomic Support Agency to be Deputy Director of the Group, Navy members include: Captains Robert T. Fuller and Gerald E. Miller; Commanders George C. Talley, jr., and Leroy B. Fraser; LCDr. George S. Bryan, jr.; and Lt. Roy A. Berry.

Marine assignees to the group thus far include Lieutenant Colonels Herbert D. Raymond, jr., and Raymond C. Hogue.

No assignments to the targeting group have been announced by the Air Force.

Sixth Fleet Bolstered By Third Attack Carrier

VADM. G. W. Anderson, jr., right, Commander, visited the Carrier Intrepid and her Commanding Officer, Capt. E. C. Outlaw, to discuss the mission of the new addition to the Sixth Fleet.

The Intrepid's Air Department eased out the newer and bigger attack aircraft carriers to earn the Commander Atlantic Fleet Naval Air Force Efficiency "E" for 1960. The "Fighting I" has a complement of 69 aircraft, including Skyhawks, Crusaders, Skyraiders, Skyrays, Tigers, helicopters and a TF "Trader."

Military Traffic Director Advises Service People On Household Goods Changes; Nation-Wide Industry Seminar Series Will Precede 1 December Implementation

BY MAJ. GEN. I. SEWELL MORRIS, USA
Executive Director, Military Traffic
Management Agency

THE movement of household goods of the military and civilian personnel of the Department of Defense has received a great deal of high level attention during the recent past. After many months of study and consultation between representatives of the Department of Defense, the Military Services, the Military Traffic Management Agency, and the household goods moving industry, a new Department of Defense Directive on this subject was approved by Secretary Gates and was published on 1 July 1960.

This directive (DOD Directive 4500.27) has as its primary objectives "To assure high quality service to military and civilian personnel of the Department of Defense in the transportation of their household goods at the lowest over-all cost to the Government," and "equitable treatment of all carriers engaged in the transportation of Department of Defense sponsored household goods who can conform to high quality standards of service and who are competitive on an over-all basis."

The directive bears an effective date of 1 July 1960. It will be implemented by a joint regulation at shipping activities of the Military Services on 1 December of this year. The intervening period of five months from the date of issuance of the new policy directive until its full implementation was deliberately planned. Time was allowed for completion, staffing, approval, and distribution of the implementing regulation and for a series of discussions with both transportation officers of the Military Services and representatives of the household goods moving industry prior to the effective date of the regulation which implements the DOD Directive.

New Regs Distributed

The implementing regulation (Chapter 217 of AR 55-355, OPNAV INST. 4600.8, NAV MC 1175 and AFM 75-2) has been printed, distributed and was in the hands of installation transportation officers by 1 September 1960.

The first of the household goods seminars was held at San Diego, California, with installation transportation officers on 7 and 8 September, and with commercial carrier representatives on 9 September. Other seminars will be held in all parts of the United States, in Europe and in Hawaii between early September and the end of November 1960.

Prior to the publication of DOD Directive 4500.27, the DOD Household Goods Program had been administered by the individual Military Services on the basis of established DOD policy. With the publication of the new directive and full implementation thereof by Chapter 217 of the Military Traffic Management Regulation general responsibility for the traffic management aspects of the transportation of household goods passes to the Secretary of the Army who is the Single Manager for Traffic Management.

The Single Manager's operating agency—MTMA—has full responsibility for discharging the Single Manager's functions in the field of transportation of household goods of military and civilian personnel of the Department of Defense (1) between points within the United States and (2) between the United States and other areas in through bill of lading service.

Implement Directive

During the past several months, MTMA, in coordination and cooperation with representatives of the Office of the Secretary of Defense, the Military Services, and the household goods moving industry has prepared the regulation necessary to implement the policy provisions of DOD Directive 4500.27.

Great care and attention have been devoted to this regulation which has been developed in strict consonance with the policy enunciated in the DOD Directive. The four Military Services have concurred in the regulation which

has been approved by the Office of the Secretary of Defense and is presently in the process of being published by the Adjutant General of the Army.

It is only natural and logical that a great deal of interest and discussion should have been devoted to the household goods question. The military and civilian families have a very deep and abiding personal interest in the matter of the movement of their household possessions. The transportation of household goods for the Department of

Defense is big business; consequently, it follows that commercial carriers are most definitely interested in the policy and regulation which govern this business. The transportation officer at the post, camp and station level is most interested in the movement of household goods because he is, in fact, the man in the middle who is responsible for safeguarding the interests of all the parties concerned. The owner, the carrier, and the transportation officer alike, want fair treatment and the best pos-

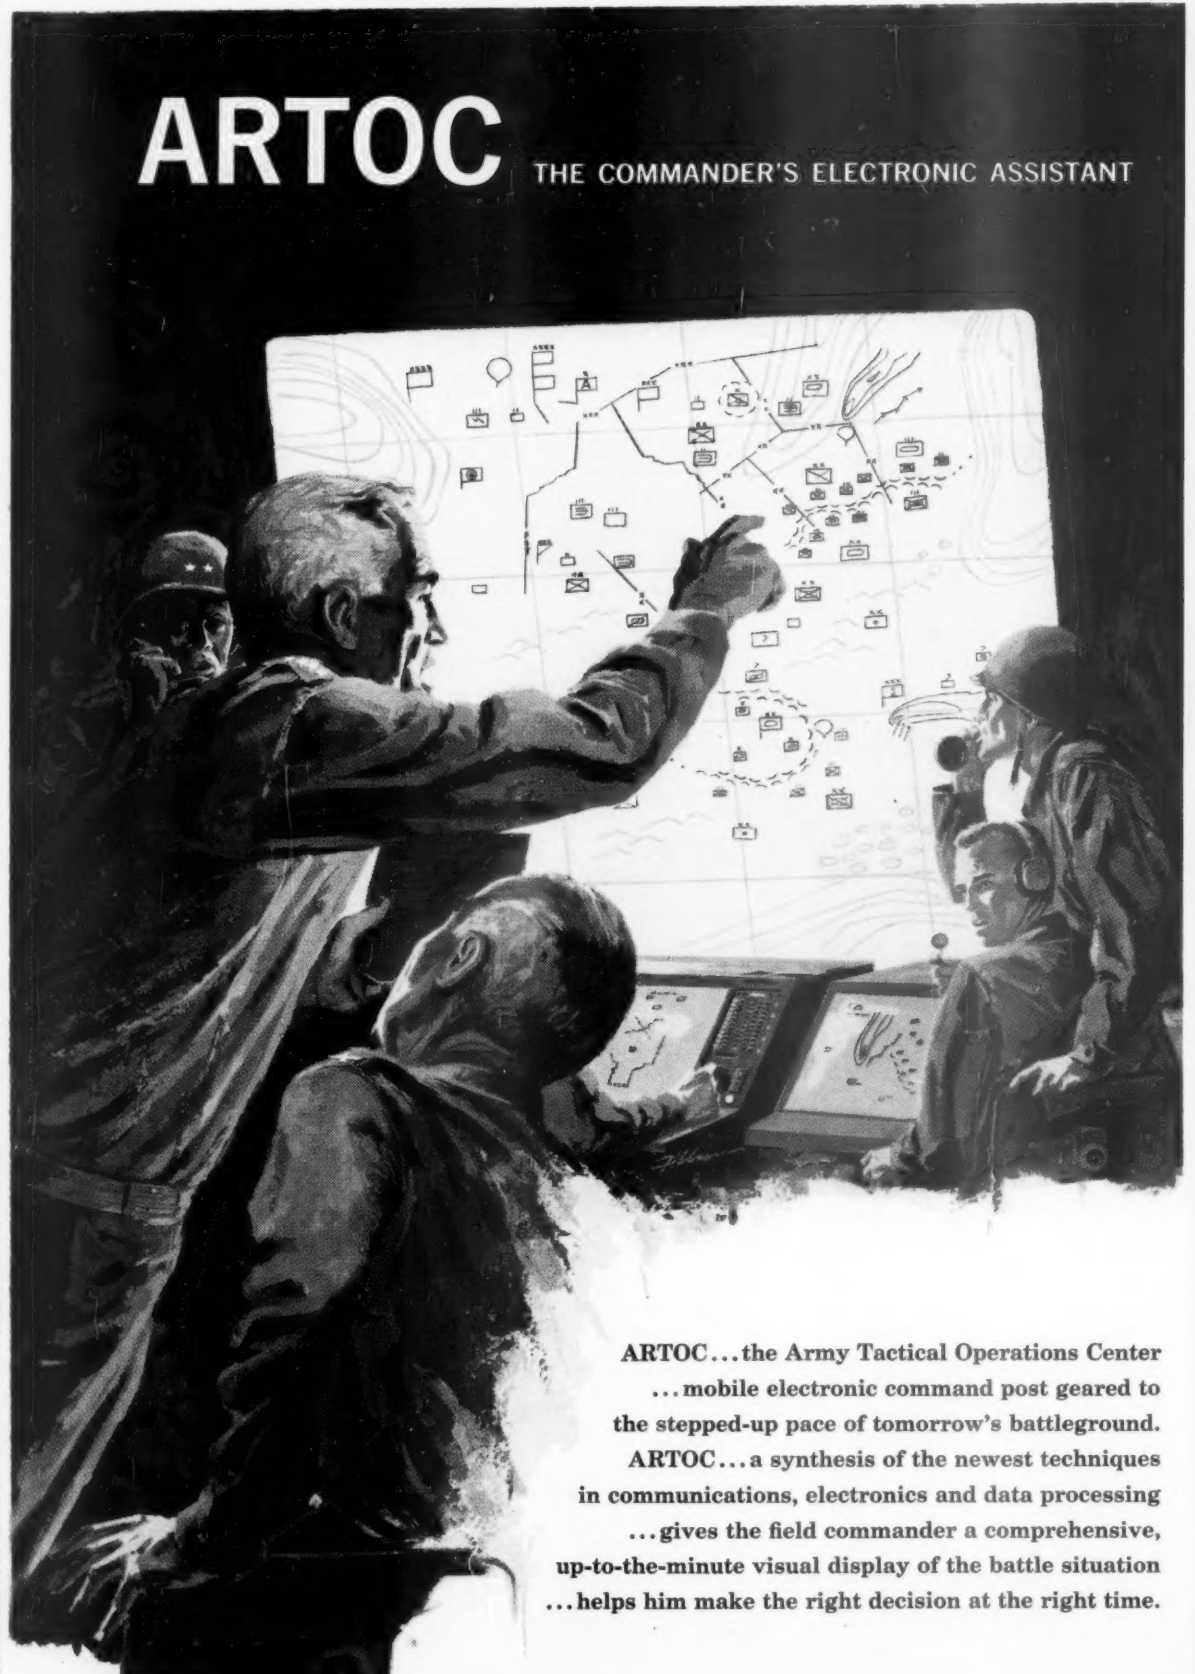

sible service. It is obviously clear that there is a distinct mutuality of interest between the military and civilian families who make use of the service provided by the commercial carriers, the carriers themselves and the local transportation officer who brings owners and carriers together.

Hold Seminars

It is because of this real sense of mutual interest that the Military Traffic

Retired Pay Equalization Now Must Wait For Months

From first page—

Committee completed its work, that the Pentagon, bowing to Budget Bureau pressure, first suggested that new pay legislation should be restricted exclusively to active duty personnel.

This, of course, was a basic break with military pay tradition.

Then, a formula was worked out whereby those retired before 1 June 1958, the effective date of the Military Pay Act, were to receive a 6% cost-of-living increase. Persons retired after that date could compute their pay on the basis of the new legislation.

Last summer, one year after the "double standard" pay bill was passed, President Eisenhower changed the Administration's position and came out strongly in support of pay equalization.

As he promised, the Chief Executive in January made this a part of the Administration's legislative program for the 1960 session of Congress.

The House of Representatives on 12 May passed the bill (H.R. 11318) unanimously and sent it to the Senate.

Storm signals in the Senate, which had been reported months earlier by THE JOURNAL, proved unfortunately to be signs

of disaster. Senator John Stennis (D-Miss.), who heads the Senate Armed Services Subcommittee which handles pay matters, had said that he was not satisfied with the retired pay system. He suggested the study of a contributory plan for all Service people.

The Pentagon, despite the President's expressed interest in the matter, did little for weeks to offset the announced opposition of Senator Stennis. Nothing was done, until it was too late, to seek from him an agreement by which those on the retired lists would be given fair treatment while a comprehensive new retired pay study was conducted.

In the absence of effective Pentagon

action to overcome the opposition of Senator Stennis, the legislation foundered in the Subcommittee. It was drowned in the adjournment maelstrom.

Obviously convinced that the Pentagon could not provide him the retired pay data he sought, Senator Stennis arranged for a civilian group of actuaries to make a retired pay study.

This is certain to take months.

There is little chance that retired pay will be an early item for action in the 1961 session of Congress. The chances are remote that either the House or Senate will take action on retired pay pending completion of the new study and extended hearings on it.

General Eddleman Named Vice CofS; CONARC Chief Gets European Post

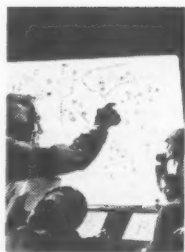

GENERAL Clyde D. Eddleman, U. S. Army Europe C in C and Central Army Group CG, will succeed CofS-designate General George H. Decker as Vice CofS. In a surprise assignment, General Bruce C. Clarke, Continental Army Commander at Ft. Monroe, Va., who attains the usual Army retirement age of 60 next year, was named to replace General Eddleman. General Clarke is a former Seventh Army CG in Germany.

Named to succeed General Clarke was Lt. Gen. Herbert B. Powell, Third Army CG at Ft. McPherson, Ga., who will be given a recess appointment as a four-star officer.

Lt. Gen. Paul D. Adams, V Corps CG in Germany, replaces General Powell.

Named for a recess appointment as lieutenant general, Maj. Gen. Frederic J. Brown, 3d Armored Division CG, replaces General Adams.

Maj. Gen. Creighton W. Abrams, jr., who is one of the Army's youngest two-star officers and Deputy CofS for Operations, USAREUR, gets the 3d.

ARTOC... is being developed by Aeronutronic Division of Ford Motor Company for the U. S. Army Signal Corps. It is one of many Aeronutronic programs aimed at simplifying military and industrial problems through the use

of an advanced computer and data processing technology. These programs—and many others related to advanced weapon and space systems—are underway at Aeronutronic's Engineering and Research Center in Newport Beach, California. They demonstrate Ford Motor Company's rapidly-growing capability in meeting the needs of science and defense in the changing world.

INSTANT-THRUST PROBLEM—SOLVED BY CESSNA

Problem: How to provide, in a jet trainer, instant reserve thrust.

Solution: Cessna T-37's thrust attenuators. Extended, the attenuators deflect exhaust blast, cut effective thrust over 40%; increase landing glide-path control while engines continue at higher power. Should the occasion demand, student retracts attenuators, unleashes full reserve power *instantly*.

Thrust attenuators are one of many reasons why the low-cost T-37 is the Air Force's standard intermediate jet trainer—and one more of the ways Cessna "Problem-Solving" Research is ever at work to assure America's future in the air.

COL. GRUBBS HEADS AMMO COMMAND

COL. Elmer W. Grubbs has assumed command of the Ordnance Ammunition Command, Joliet, Ill. He succeeds Col. Lyman F. Stangel, USA-Ret. Colonel Grubbs, USMA '36, has served since 1958 as Chief of the National Field Service Operations Division and Deputy Commander at Joliet.

He will direct an extensive program for the procurement of ammunition components from private industry, production and maintenance activities at the Army's ammunition plants, and the stock control and supply of ammunition at Ordnance depots located throughout the United States.

Colonel and Mrs. Grubbs, the former Margaret Fountain of Columbus, Ga., have two daughters, Susan, 5, and Margaret Lois, a junior at the Wilmington High School. Their son, Judson, is a junior at the University of Oklahoma.

Col. Olhausen Is Named Ops Chief at ARADCOM

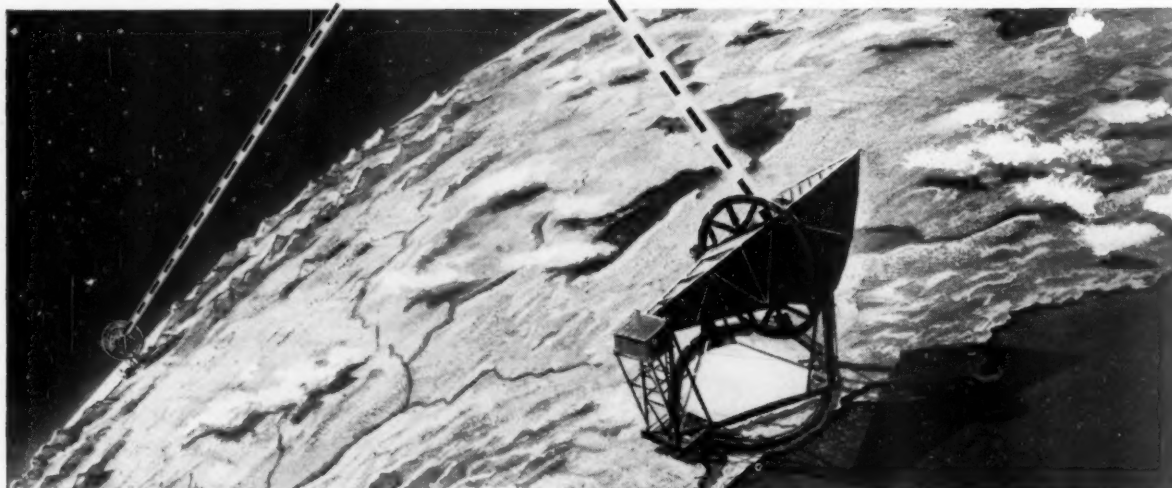

Col. James N. Olhausen is the new Deputy G-4 (Logistics) Officer at U. S. Army Air Defense Command Headquarters in Colorado Springs.

His prior assignment was that of Chief of the Operations and Training Division, G-2 (Intelligence) Section, Fourth U. S. Army, Ft. Sam Houston, Tex.

Colonel Olhausen is married and has two children—a married daughter living in Ft. Worth, Tex., and a 13-year-old son, James N., jr. The Olhausens live at 1012 Mercury Dr., Colorado Springs.

FIRST PHONE CALL VIA MAN-MADE SATELLITE!

"Project Echo" satellite went into a near-perfect circular orbit 1000 miles high, circling the earth once every two hours. Its orbital path covered all parts of the U. S.

BELL TELEPHONE LABORATORIES BOUNCES VOICE OFF SPHERE PLACED IN ORBIT A THOUSAND MILES ABOVE THE EARTH

Think of watching a royal wedding in Europe by live TV, or telephoning to Singapore or Calcutta—by way of outer-space satellites! A mere dream a few years ago, this idea is now a giant step closer to reality.

Bell Telephone Laboratories recently took the step by successfully bouncing a phone call between its Holmdel, N. J., test site and the Jet Propulsion Laboratory of the National Aeronautics and Space Administration (NASA) in Goldstone, California. The reflector was a 100-foot sphere of aluminized plastic orbiting the earth 1000 miles up.

Dramatic application of telephone science

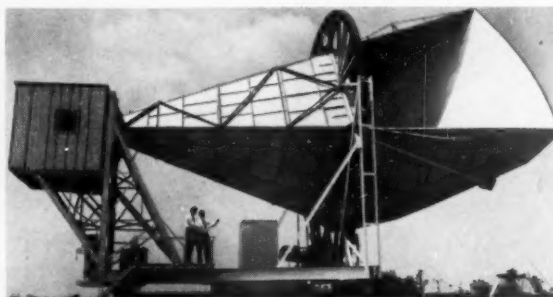

Sponsored by NASA, this dramatic experiment—known as "Project Echo"—relied heavily on telephone science for its fulfillment...

▪ The Delta rocket which carried the satellite into space was steered into a precise orbit by the Bell Laboratories Command Guidance System. This is the same system which recently guided the remarkable Tiros I weather satellite into its near-perfect circular orbit.

▪ To pick up the signals, a special horn-reflector antenna was used. Previously perfected by Bell Laboratories for microwave radio relay, it is virtually immune to common radio "noise" interference. The amplifier—also a Laboratories development—was a traveling wave "maser" with very low noise susceptibility. The signals were still further protected from noise by a special FM receiving technique invented at Bell Laboratories.

"Project Echo" foreshadows the day when numerous man-made satellites might be in orbit all around the earth, acting as 24-hour-a-day relay stations for TV programs and phone calls between all nations.

This experiment shows how the Bell Telephone System is working to advance space communication. Just as we pioneered in world-wide telephone service by radio and cable, so we are pioneering now in using outer space to improve communications on earth. It's part of our job, and we are a long way toward the goal.

Giant ultra-sensitive horn-reflector antenna which received signals bounced off the satellite. It is located at Bell Telephone Laboratories, Holmdel, New Jersey.

BELL TELEPHONE SYSTEM

All Promotions Made By Board

From first page—

that actually there were 15 names which were not announced.

In addition to the eight, previously reported to THE JOURNAL in answer to inquiries, the Army now reports that there were seven officers in the basic zone on whom routine security clearance action was not completed when the selection board's findings were published.

When it became known this week that the eight unannounced "outstanding" selections from the secondary zone include several officers who hold sensitive positions at the Pentagon, THE JOURNAL submitted additional inquiries to the Army.

One of the officers, Lt. Col. John B. Wadsworth, is the Deputy to the Military Assistant Secretary of the Army Wilber M. Brucker.

Another, Lt. Col. Lewis J. Ashley, is on duty with the Review Branch, Investigation Division, Office of the Army Inspector General.

It was in response to the new inquiries that the Army stated unequivocally that the 1959 board had chosen every officer who was promoted—the eight received their higher rank only last month. The Army spokesmen reiterated that there have been no irregular procedures whatsoever in this or any other promotion list in recent years.

No explanation was forthcoming as to why the Army failed to inform the officers who were selected but whose names were withheld months after the administrative clearances had been obtained.

The effects of the Army's actions were (1) to raise concern of "favoritism" because of the secrecy which surrounded the selections; and (2) to stigmatize certain officers unfairly with the aftermath of the Peress Case. The names of those who were not cleared immediately—for whatever reason—are easy to identify.

As THE JOURNAL went to press, there was no word from the Army that there would be any changes in the present security clearance procedures.

It is possible that the Bolté Committee will ask the Army for a report on how it handles the security problem in making promotions.

The committee, headed by General Charles L. Bolté, USA-Ret., a former Army Vice CofS, has as its basic mission the elimination of as many disparities as possible in Service promotion procedures.

As was reported in last week's issue of THE JOURNAL, the Navy, Air Force, and Marine Corps were emphatic in declaring that their unanimous practice is to announce all selections simultaneously.

Apparently, the other three Services are able to handle their security clearances with greater ease than in the Army, since no lists are held up for this purpose, and all names are announced at the same time.

The Navy and marine Corps, for example make it a practice of sending the names recommended by the board to the President within a day or two after the board completes its deliberations. Then, if the White House acts expeditiously, the

names are immediately made public.

All of the Services, of course, in announcing recommended lists make their people aware of the fact that these are not promotion orders, and that it is possible to eliminate some names from the list for good cause.

Thus, the Army would have had a year's time in which to complete the administrative reviews of all majors selected by the 1959 board. The Army makes the point that it does not wish to send to the White House any selections which have not been screened.

The question remains as to how the other Services can accomplish this task

without delays, while the Army, even for officers on duty at the Pentagon and in sensitive positions, cannot publish a complete list of selections simultaneously.

Parris Island Changes

Maj. Jack L. Nolan and Lieutenant Angelo M. Inglis have been assigned duties with the Weapons Training Battalion at the Parris Island, S. C., Marine Corps Recruit Depot.

Major Nolan relieved Major Bowen as Chief Range Officer. Lieutenant Inglis is Ordnance Officer.

War Plans Chief Retires

Col. Earl Sutton, USA, has retired after more than 20 years of active service. Since January 1959 he has been at U. S. Continental Army Command headquarters as Chief of the War Plans Branch in the Office of the Deputy Chief of Staff for Operations, Plans and Training (G-3).

Colonel Sutton will live in Fort Lauderdale, Fla., with his wife, Kathleen, and children.

Now, all-weather power in a new Crusader!

The new F8U-2N Crusader shows how "growth potential" in fighter design makes sense. This all-weather fighter developed fast. Its basic engineering had been established and refined by the 500-plus Crusaders already with the Fleet. Their reliability and availability—proved by 250,000 hours of flight time and 25,000 catapult shots—accrued to the F8U-2N. And with this fighter, the flexible Crusader design once again "grew" to incorporate an advanced engine, improved accessory systems... new all-weather power for the Fleet. The F8U-2N is a product of Chance Vought's Aeronautics Division, developers of missiles, aircraft, ASW equipment and other products for atmospheric defense.

NEW ERA OF WESTERN DEFENSE

Navy launches first Polaris missile from submerged sub

Erupting from Atlantic waters off Cape Canaveral July 20, a slim white Polaris missile fired from the nuclear submarine U.S.S. George Washington launched a new era of defense. Arching skyward on a column of flame, the Polaris made its clear contribution to the security of free nations before it shook off its last drops of brine. To further demonstrate the missile's dependability, the Navy then launched a second Polaris from the nuclear sub. This was the climax of a remarkable 47-month race to develop the Navy's Fleet Ballistic Missile Weapon System. Combined for the first time were a nuclear-powered submarine, hidden in ocean depths and able to cruise anywhere, unseen for months, and a powerful missile, so compact a single sub can carry 16 of them with nuclear warheads. The Polaris gives America a defense that cannot be overwhelmed by surprise attack, a defense that will work for peace by making aggression unthinkable. Lockheed is prime contractor and missile system manager for the Polaris missile. Aerojet-General Corporation is the subcontractor responsible for the missile's rocket motor, General Electric Corporation for its guidance system, and Westinghouse Electric Corporation for the launch system. The U.S.S. George Washington was built by the Electric Boat Company.

MISSILES & SPACE DIVISION, SUNNYVALE, CALIFORNIA

ASW Squadrons Win Isbell Awards

The Navy has announced the 1960 winners of the Capt. Arnold Jay Isbell trophy for excellence in air-antisubmarine warfare.

East Coast squadrons receiving honors included Patrol Squadron 18, located at Jacksonville, Fla.; and 49 at Bermuda; Air-Antisubmarine Squadrons 22 and 32 and Helicopter Squadron 9, all at Quonset Point, R. I.

(During the period when squadron performances were evaluated for the awards, Air-Antisubmarine Squadrons 22 and 32 were combined as Air-Antisubmarine Squadron 32.)

West Coast Squadrons include: Patrol Squadrons 28, at Barbers' Point, Hawaii; 48, at North Island, San Diego; Air-Antisubmarine Squadron 37, at Long Beach, Calif.; and Helicopter Squadron 2, at San Diego.

The award is presented annually to Naval aviation squadrons which achieve excellence in air-antisubmarine warfare. The trophy is named for the late Captain Arnold Jay Isbell, USN, who distinguished himself during WW II in conducting antisubmarine warfare against hostile submarines thwarting shipping along convoy routes from the United States to North Africa.

The trophy is located in Washington, D. C. Engraved plaques are kept in permanent custody by winning squadrons. The Martin Company co-sponsors the Isbell awards.

Commanding Officers of the winning squadrons are:

VP-18, Cdr. Richard A. Sampson; VP-49, Cdr. Thomas R. McClellan; VS-22, Cdr. Donald P. Walker; VS-32, Cdr. Norman W. Wilde; HS-9, Cdr. Robert B. Cavanaugh.

VP-28, Cdr. William C. Campbell; VP-48, Cdr. Kermit M. Miller; VS-37, Cdr. Frederick Silverthorne; HS-2, Cdr. Francis F. Johnson.

Sub Chief

VAdm. Elton W. Grenfell has assumed command of the Atlantic Fleet Submarine Force. He relieved RAdm. Lawrence R. Daspit, who will remain in New London, Conn., as Deputy Commander of the Submarine Force.

The Submarine Force Headquarters were moved recently from New London to Norfolk, the first such shift since the formation of the Submarine Force Command in 1941.

Admiral Grenfell's staff will include some 100 officers and enlisted men, who will be based at Atlantic Fleet Headquarters. The personnel move from New London to Norfolk is not yet complete but the new Submarine Force is expected to be fully operational by 1 October.

Prior to being named to the new post in August, Admiral Grenfell was Assistant CNO (Logistics) in Washington.

Admiral Grenfell, a veteran submariner who was heavily decorated during WW II, was Commander Submarine Force Pacific from August 1956 to September 1958.

As Commanding Officer of the Gudgeon (SS 211)—the first submarine to sail on war patrol from Pearl Harbor—Admiral Grenfell was awarded the Navy Cross and the Silver Star Medal.

Admiral and Mrs. Grenfell, the former Martha Fronk Lindsey, have five children. Their oldest son is a Navy Lieutenant serving aboard the submarine Barbero (SSG 317) at Pearl Harbor.

Marine Generals Get New Duties

Maj. Gen. Marion L. Dawson, Senior Member, Military Armistice Commission, United Nations Command, will relieve Maj. Gen. Samuel S. Jack as Commander, Marine Corps Air Bases, Western Area, and Commanding General, Marine Corps Air Station, El Toro, Calif.

Major General Jack, who has been serving in those billets concurrently with his assignment as Commanding General, Aircraft, Fleet Marine Force, Pacific, will continue in the latter capacity.

Maj. Gen. Ralph K. Rottet, Commander, Marine Corps Air Bases, Eastern Area, and Commanding General, Marine Corps Air Station, Cherry Point, North Carolina, will succeed Brig. Gen. Frank C. Tharin, 1 October as Command-

ing General, 2d Marine Aircraft Wing, Marine Corps Air Station, Cherry Point. Brig. Gen. Tharin will be assigned to the posts vacated by Major General Rottet.

Brig. Gen. Roy L. Kline, Assistant Wing Commander, 2d Marine Aircraft Wing, Cherry Point, will relieve Brig. Gen. Louis B. Robertshaw, Assistant Wing Commander, 1st Marine Aircraft Wing, Iwakuni Japan, in December.

Brig. Gen. Robertshaw will relieve Brig. Gen. Frederick E. Leek, Commander, Marine Air Reserve Training, Glenview, Ill.

General Leek will become Assistant Division Commander, 1st Marine Division, Camp Pendleton, Calif.

Navy Lists Juniors

Following are the names of junior unrestricted Navy officers in permanent grades, U. S. Navy as of 1 August 1960 who have been commissioned in, or have become due for promotion to the grades indicated:

Line

RAdm James W Davis
Capt Roy G Anderson
Cdr Charles A Kuhl
LCdr Charles E. Breen, jr
Lt Walton W Smith, jr

Medical Corps

RAdm Cecil L Andrews
Capt Francis M Morgan
Cdr Albert D Nelson, jr
LCdr Walter J Meekings, jr
Lt Louis E. Potvin

Supply Corps

RAdm Edward F Metzger
Capt Carl A Raymond, jr
Cdr William J Fallon
LCdr Gale W Nuernberger
Lt Arthur G Mercier

Chaplain Corps

RAdm George A Rosso
Capt Edward A Slattery
Cdr Robert E Elliot
LCdr Francis J N Fitzpatrick
Lt Elbert N Carpenter

Civil Engineer Corps

RAdm Henry G Clark
Capt Robert R Wooding
Cdr Fred M Hardin
LCdr William H Sturman
Lt George L Smith

Dental Corps

RAdm Curtiss W. Schantz
Capt Jerome F Peters
Cdr Maurice A Mazzarella
LCdr Carl J Swanson
Lt William R Martin

Medical Service Corps

Capt William W Taylor
Cdr Ralph A Sennott
LCdr Cleo R Allen
Lt Orval B Wetzel

Nurse Corps

Capt Ruth A Houghton
Cdr "D" Dorothy Bogdon
LCdr Romaine M Mentzer
Lt Mary E A Fitzpatrick

Women Officers (Line)

Cdr Mary C Houck
LCdr Jean O Casanova

Limited Duty Only (Line)

Cdr Gordon B Dosskey
LCdr Arthur C White
Lt Ray O Thornton

From Mach 2 vapor trails to deck-level intrusion

The A3J adds new flexibility to America's sea-air power

Small enough to land on a carrier deck, yet potent enough to pack a heavyweight punch, the Navy's A3J Vigilante is the world's most versatile Mach 2 airplane.

It is capable of long-range interception, low-level attack, or high-performance strike missions. Its short-field landing capability makes it an ideal major support

weapon for limited warfare. And advanced control systems equip it to deliver weapons from any attitude, at any altitude, and in any weather.

The A3J—a compact, businesslike, hard working airplane with unlimited talents—was designed and built by the Columbus Division of North American Aviation.

Air Force Will Send 1500 Officers To Missile Courses In Next Year

More than 1200 Air Force officers will be assigned to ballistic missile training in 1961.

They will attend a new ballistic missile operations maintenance course at Sheppard AFB, Tex.

Between 250 and 300 officers will be assigned to Tactical Air Command missile courses at Lowry AFB, Colo., next year.

Most of the officers will be in the grade of first lieutenant and captain.

There will be some openings, however,

in grades through lieutenant colonel.

Air Force officials say they expect quotas in excess of 1500 for missile courses beginning in calendar year 1962.

The ballistic missile course, full title of which is Guided Missile Operations/Maintenance Officer Ballistic Missiles, was restricted formerly to SAC officers.

Courses for which applications are being accepted are:

OBR1821-1 (TAC Missile) Guided Missile Operations Officer (TM76A); OBR1821-2 (TAC Missile) Guided Missile Operations Officer (TM76B); OBR3121B-1 (TAC Missile) Guided Missile Maintenance Officer (TM76A); OBR3121B-2 (TAC Missile) Guided Missile Maintenance Officer (TM76B); and OBR1821/3121B-3 (Ballistic Missile) Guided Missile Operations/Maintenance Officer Ballistic Missiles.

ADT

AUTOMATIC SECURITY SERVICES

The same skill and dependability that have made ADT the nationwide leader in the field of electric protection for industry are outstanding features of ADT security systems.

Each ADT security system is engineered for maximum efficiency. ADT technicians are constantly engaged in research and development to maintain the highest standard of protection.

It is noteworthy that ADT has been selected to safeguard properties for 30 Government agencies at hundreds of locations throughout the world.

It is significant, too, that approved security systems such as those provided by ADT are becoming more and more important in the nation's security program.

For detailed information, phone the ADT office listed in your directory or write our executive office in New York.

A NATIONWIDE ORGANIZATION
155 Sixth Avenue, New York 13, N.Y.

Guard Association Meets In Hawaii

The National Guard Association will hold its 82d General Conference 10-14 October in Honolulu.

Maj. Gen. William H. Harrison, jr., President of NGAUS, has announced that the speakers will include Under Secretary of the Army Hugh M. Milton, II; Under Secretary of the Air Force Joseph V. Charyk; General W. B. Palmer, USA-Ret., Director of Military Assistance, Department of Defense; General Clark L. Ruffner, U. S. Representative to NATO Military Committee; General Bruce C. Clarke, CG, Continental Army Command; Lt. Gen. Jacob E. Smart, Deputy Commander, Tactical Air Command; Lt. Gen. Robert J. Wood, CG, Army Air Defense Command; Franklin L. Orth, Executive Vice President, National Rifle Association of America; and Lt. Gen. Lewis B. Hershey, USA-Ret., National Director of Selective Service.

Five U. S. Cities Will Be "Bombed" During Annual SAC Competition

FIVE American cities will be primary and alternate targets for simulated attacks by jet bombers during the 1960 SAC Combat Competition 12-16 September.

Twenty-six bomber crews will strike specified radar targets in Atlanta, Ga., and Joplin, Mo. Atlanta will come under simulated "attack" from altitudes of 40,000 feet and above. Bomb runs on Joplin will be made below 5,000 feet. Amarillo, Tex., will be the alternate high altitude target city, while low altitude alternate targets will be Hastings, Nebr., and Laurel, Miss.

Twenty-six SAC tanker crews will also participate in the 12th annual meet, to be staged this year from Bergstrom AFB, Tex. In addition to the radar bomb runs, bombers will be scored on air refueling by tankers, celestial and radar navigation legs, use of electronic countermeasures equipment to confuse simulated defense radar and evasive maneuvers during the high altitude bomb run.

Tanker crews will compete in refueling and celestial navigation legs.

Another factor added to the competition to parallel combat conditions will be immediate takeoff from standby alert. Crews can gain or lose points on the time required to reach their planes and takeoff after receiving a "launch" signal.

For the first time the B-58 Hustler supersonic jet bomber, will participate in the contest. Two Hustler crews from SAC's 43d Bomb Wing at Carswell AFB, Tex., will make their bomb runs at faster-than-sound speeds.

Other competing aircraft, representing SAC's three numbered air forces in the United States, include B-47 and B-52 bombers and KC-97 and KC-135 tankers. Each unit will send two crews and one aircraft.

Several awards will be presented on September 16 for highest scores in various competition categories. Top bomber award is the Fairchild Trophy, presented annually by General Thomas S. Power, SAC CinC, to the unit scoring highest in the overall competition. The new Saunders Trophy will be awarded to the top tanker unit.

Titan Man Nominated For Top JCC Honor

NOMINATED as the Air Force Ballistic Missile Division candidate for the annual American Junior Chamber of Commerce "Ten Outstanding Young Men of the Year" awards, Capt. William E. Dean, 30, Executive Officer of the Titan Directorate is shown with the Titan Program Director at the Air Force Ballistic Missile Division, Col. Albert J. Wetzel.

Captain Dean is the youngest in the family of renowned military personnel. His father, an officer in the Navy, was killed in action in WW II. His mother, Mrs. Frank E. Carlton, resides at 1245 University Drive, N. E., Atlanta, Ga.

Captain Dean is married to the former Dorothy Sue Hamilton of Wichita Falls, Tex. They have two daughters, Janet, 6, and Judy, 2—and reside at 749 35th St., Manhattan Beach, Calif.

LAUNCHER BOOST

The Air Force has authorized an increase of 20 Bomarc B launchers at the Niagara Falls, N. Y. launching site, it is announced by Lt. Gen. Joseph H. Atkinson, ADC Commander.

Plans for the Niagara Falls site, located at the municipal airport, originally called for 28 launchers. No completion date has been announced.

The Bomarc B is the latest Air Force interceptor missile which can destroy targets in a radius of 450 miles from its home base.

Late in July the Air Force authorized construction of 28 additional Bomarc B launchers at McGuire AFB, New Jersey and 28 at Otis AFB, Mass.

Board Will Consider AF Res. For Promotion

A board of officers will convene at the Manpower Bank of The Air Force, Air Reserve Records Center in Denver, 3-7 October to consider approximately 2,900 eligible Reserve officers, not on extended active duty, for promotion to the grade of major.

To be eligible for consideration, officers must hold a promotion service date on or before 30 June 1955 and a total year service date on or before 30 June 1948. Requirements for mandatory consideration for promotion to major are seven years Promotion List Service and 14 years total federal commissioned service.

Aero Commander Trophy Goes To 127th F.I. Sqdn.

The Aero Commander Trophy has been presented to Lt. Col. Donald W. Coulson, Commander of the 127th Fighter Interceptor Squadron, Wichita, Kan., by Thomas J. Harris, Vice-President and General Manager of Aero Design and Engineering Co., Bethany, Okla.

The Commander trophy is given each year to the leading squadron in the Oklahoma-Kansas Air National Guard 137th Air Defense Wing. In competition with the winning 127th Fighter Interceptor Squadron is the Oklahoma City based 137th Fighter Group. This makes the second year in a row the Wichita group has won it.

12TH OPS CHIEF

Brig. Gen. Ivan W. McElroy, former Commander of England AFB, La., has been appointed Deputy for Operations at Twelfth Air Force, Waco, Tex., it is announced by Maj. Gen. Karl Truesdell, jr., Commander.

General McElroy replaces Col. Charles A. Gayle, who has been Acting Deputy for the past year. He becomes the Assistant Deputy.

General McElroy, USMA '37, is married to the former Mary Swan Thompson of Mansfield, Pa. The McElroy's and their three children, Stephen, 20; James, 18; and Catherine, 11; reside on Route #4, near Waco.

Oklahoma City Sector Expands

Oklahoma City NORAD Sector will more than double its size 15 September when it assumes responsibility for defending the air space over West Texas, New Mexico, and most of Colorado.

Col. Alfred V. Walton, Commander, said his Sector would be given the air defense responsibility presently held by the Albuquerque NORAD Sector. The Albuquerque Sector headquarters will be inactivated.

The change will add seven aircraft control and warning squadrons to the Oklahoma City Sector. The squadrons, all fully operational, are located at: Amarillo, Tex. (688th); Sweetwater, Tex. (683d); Ozona, Tex. (732d); Pyote, Tex. (697th); Las Cruces, N. M. (685th); Roswell, N. M. (686th); West Mesa, N. M. (687th).

Also to be included in the expanded Sector is the 331st Fighter-Interceptor Squadron, Webb AFB, Big Spring, Tex. and the 188th Fighter Squadron (ANG) at Kirtland AFB, N. M.

An Army Nike battalion near Dyess AFB, Tex., will also come under operational control of the Sector Commander.

Already part of the Oklahoma City Sector are ten aircraft control and warning squadrons, four fighter-interceptor squadrons, and three Nike battalions.

M/G Hudnell At Kelly

Maj. Gen. William T. Hudnell has arrived at Kelly AFB, Tex., to command the San Antonio Air Materiel Area.

He reports from Wright-Patterson AFB, Ohio, where he served as Director of Maintenance Engineering for the Air Materiel Command.

Brig. Gen. Dorr E. Newton, jr., had been acting as interim SAAMA Commander since Maj. Gen. Lewis L. Muddell departed command of Oklahoma City AMA at Tinker AFB.

Lindsey, Turnage R, Keesler AFB, to APO 81, NY.

1ST LIEUTENANT

M/G TERRILL LEAVES JCS STRATEGIC POST

MAJ. GEN. Robert H. Terrill is the new Commander of Air Proving Ground Center at Eglin AFB, Fla. He replaced Brig. Gen. Robert H. Warren, Deputy Commander, who has commanded APGC since Lt. Gen. Joe W. Kelly was reassigned as MATS Commander in May, reverted to his former position as Vice Commander.

The new APGC Commander arrived from Washington, D. C., where he was previously assigned as Air Force member of the JCS Joint Strategic Survey Committee. Prior to his Washington assignment, he served with SAC for a 10-year period.

General Terrill, USMA '32 is married to the former Mildred Helmrach. They have one daughter, Lynn, a graduate of Colorado College, Colorado Springs.

NOTHING IS TOO FAR OUT.... FOR GRUMMAN TO BE IN

This is a vapor screen photograph of hypersonic Mach 8 flow about a delta wing with underslung cone, taken in Arnold Engineering Development Center tunnel B. Photo was made during Grumman research experiments, partially supported by Air Force Wright Air Development Division Flight Control Laboratory.

Shock pattern is discernible along the shock layer on wing (light area), boundary layer on wing (dark region), and shock layer on body (dark region). Bright white line on underside of wing and body is reflection of light screen.

This photo characterizes the work Grumman is doing in hypersonic aerodynamics. Other efforts at Grumman include continuing design and development work on orbiting observatories, interplanetary communication systems, re-entry vehicles and reconnaissance satellites, to name a few.

Most important: Grumman has the "people capability" to transform advanced ideas to reality. So . . . if you have a problem that's far out . . . call Grumman in.

ADVANCED IDEAS GROW INTO REALITY AT

"Silent" Selections Need Further Examination

If the Army continues to find it impossible to answer all pertinent questions regarding the promotion of the eight majors whose selections to lieutenant colonel were never announced, we believe that the Bolté Committee will want to interest itself in this situation.

The all-Service Committee, headed by General Charles L. Bolté, USA-Ret., is seeking to eliminate disparities in promotion practices among the Armed Forces.

The Army has stated that the eight majors were chosen by a selection board. It will be interesting for the Bolté Committee to note that the Navy and Marine Corps make it a practice to announce selection board membership. The Army and the Air Force withhold the names of board members, even after they have adjourned.

The Army says that announcement of the eight selections was delayed because of security review procedures which were put into effect after the 1954 case involving the promotion to major of a dentist, Irving Peress, drew heavy fire from the late Senator Joseph McCarthy.

There is no doubt that the Navy, Air Force, and Marine Corps screen their promotion selections as carefully as the Army, but they do not withhold announcement of selections for this reason. Only the Army does that.

The Bolté Committee should insist, in its final report, that all officers chosen for higher rank be notified of this action simultaneously, whenever possible. No officer should be denied selection information which is made available to his contemporaries.

We suggest that the Bolté Committee survey the matter of so-called "spot" promotions in the Services. It is important that such officials as the Secretary of a Service have the authority to recommend officers for promotion in special circumstances, without the necessity of convening a board. But in such circumstances, the Services should make certain that there is announcement of the action, the same as for all other promotions.

The Army maintains that there is no "spot" promotion aspect to the advancement of the eight majors. They were chosen by the same selection board which chose hundreds of other majors for lieutenant colonel, the Army says. The difference is that nobody told the eight majors or anybody else that they had been selected.

The Bolté Committee will serve the cause of military morale well if, in its final report, there is a firm recommendation that all the Services make public as much information as possible concerning selection and promotion actions to all ranks, certainly to all those below the two-star level.

Don't Penalize Missile Site Families

The Department of Defense should make a prompt study and take whatever action is necessary to assure that families of military men assigned to duties at remote sites in the United States receive adequate medical care. As reported in last week's issue of THE JOURNAL, the situation now is such that out-patient care is denied to large numbers of family members whose sponsors are assigned to early warning radar or missile sites that are distant from a major military installation.

The Medicare Program, contrary to what many people believe, does not provide authority for use of funds for out-patient care. With only a limited number of exceptions, Medicare is designed to cover hospitalization cases.

But what happens when a member of a family of a military man assigned to a remote station needs out-patient care, such as might be provided routinely at an Army, Navy, or Air Force hospital? The Serviceman often must pay out of his pocket for care which is available to others in uniform.

The answer to the problem seems to be the granting of authority to local commanders to enter into contracts with civilian physicians in remote areas to assure equality of family medical care. With more and more military men headed for missile site duties, the family medical care problem will become aggravated unless remedial steps are taken promptly.

The Services Are Not Reform Schools

It is heartening that one judge, Homer Ferguson of the Military Appeals Court, has called upon the judges of the civil courts to stop putting defendants on probation or suspending their sentences on the proviso that they enlist in one of the Armed Services. This deplorable practice has been growing and it is time someone put a stop to it.

Judge Ferguson declared the practice operates "on the theory that the military will reform the boy, but this does not always prove true."

While recruiting officers undoubtedly would reject anyone trying to enlist under such circumstances, the facts are not always easy to ascertain because such extra-legal agreements are often not made a part of the court records.

Service in the military forces is an honorable career. The civil judges do the nation a disservice when they attempt to "sentence" law violators to join the Armed Forces. We hope all judges will heed the plea of Judge Ferguson.

Readers' Views

(Letters to the Editor must have author's name and address, but name will be omitted on publication if writer so states. Longer letters may be excerpted for publication.)

Pay Equity and Politics

■ In your 20 August issue you cite Senator Lyndon B. Johnson's form letter as evidence of "powerful" support for H.R. 11318; and in your 27 August issue you say: "Both the Democratic Presidential nominees have announced their backing for the measure."

While the latter statement is technically correct, I differ from your interpretation of Senator Johnson's letter, a copy of which came to me.

I evaluate the Senator's letter as an attempt to focus political responsibility for pay inequity upon the Administration, while conveying the impression that as our champion he would surely do something, someday, to "change" the legislation. At the same time, his defense of the smothering of the Bill by Senator Stennis suggested to me that he would support that Senator in his all-out effort to revolutionize the time-honored system of retirement pay for the armed forces. Subsequent events strengthen my belief.

I question the wisdom of your apparent whitewashing of the Democratic leaders. While the Administration did fail us in the 1958 legislation, they later reversed their stand and have done what they could to obtain a remedy. The Democratic leaders had obvious power to enforce an immediate correction. I believe that they should be judged, not by language, but solely by their failure to act according to implied promises.

B. G. CHYNOWETH
BRIG. GENERAL, RETIRED
832 SAN LUIS ROAD
BERKELEY, CALIF.

Promotion List Problem

■ Your coverage of the formation and aims of the Bolté Committee has been most comprehensive, as well as encouraging, to a certain large group of Regular Army Officers. As the purpose of the new study is to "strengthen morale by elimination of disparities," it is hoped that the committee will consider officer morale and the personnel policy disparity shown those officers ap-

pointed to the Regular Army from 1948 through 1955 under the Competitive Tour and Active Duty programs.

In placing these appointees on the permanent promotion list, no credit was given them for active commissioned service performed between 6 Dec 41 and 1 Jan. 48. This credit had been granted to officers appointed to the Regular Army under the 1946-47 Integration Programs. Although unfortunate, denial of this credit was known at the time of appointment, and acceptance of appointment was voluntary. However, under the Armed Forces Regular Augmentation Act of 1956, officers appointed to the Regular Army were given credit for active commissioned service performed between 6 Dec 41 and 1 Jan 48. No attempt was made to adjust the Regular Army Promotion List standing of the group appointed from 1948-1955 on the same basis of credit granted appointees under the Augmentation Act of 1956. The U.S. Air Force, however, made this adjustment. QUESTION: How come this demoralizing personnel policy disparity?

Regular Army officers in this disillusioned and disappointed, but not embittered, group have faith and hope that recommendations for rectifying, such a glaring disparity and inequity will be forthcoming by General Bolté and his committee.

CAPTAIN, USA

NEW TAC ERA

The 17 September issue of The Journal will be highlighted by an article in which General Frank F. Everest, head of the Tactical Air Command at Langley AFB, Va., discusses the role of the new Republic F-105 Thunderchief.

General Everest declares that the advent of the March 2 F-105 portends a "new era in tactical air power."

He tells how the Thunderchief will perform a variety of Air Force missions and how it will provide Army commanders with close air support.

The TAC leader's report is one of a series of special Commanders Reports which The Journal is publishing to present the authoritative word on new developments in the Fighting Forces.

IN THE JOURNAL

Armed Forces Strength Will Double; "Leftys" Not Barred from USMA; Moseby Is Not Dead

10 Years Ago—The President in his recent radio report to the American people announced that the strength of the Armed Forces of the United States would be increased from 1.5 million to 3 million.

50 Years Ago—The decision of the Surgeon General of the Army that left-handedness is no bar to appointment to the Military Academy suggests that it may even be an advantage to a cadet. The training at the Academy may tend to make him ambidexterous.

97 Years Ago—The report of the death of the guerrilla, Moseby, is found to be premature. He has been ill, but is not yet dead.

Comptroller General's Official Ruling On Extension Of Dual Pay Ban

FOLLOWING is the text of Comptroller General Joseph Campbell's decision (B-123382) placing Reserve officers retired for disability under the act of 3 April 1939 under the dual compensation restrictions of the Economy Act of 1932.

These officers will be subject to a \$10,000 limit on combined retired and civilian pay when working for the Government after 1 November.

Those wounded in action with an enemy or by an instrumentality of war are automatically exempted from the dual compensation provisions.

Reference is made to letter of July 8, 1960, from the Deputy Assistant Secretary of Defense (Comptroller), requesting decision as to whether the rule stated in 36 Comp. Gen. 808, relating to the proper application of the dual compensation statutes to reserve officers retired under statutes other than Chapter 67 of Title 10 of the U. S. Code, should continue to be followed in view of the decision of January 20, 1960, of the Court of Claims in the case of *Palmer v. United States*, Ct. Cl. No. 356-58.

Four Questions

Four specific questions upon which decision is requested are set out and discussed in Committee Action No. 268 of the Military Pay and Allowance Committee, Department of Defense, a copy of which was transmitted with the letter of July 8, 1960. The questions are as follows:

"1. Do the dual compensation statutes apply to reserve officers retired for physical disability under the provisions of any law providing for such retirement?"

"2. Is a reserve officer retired pursuant to Title II of the act of 29 June 1948 (62 Stat. 1087 [108h], 10 U.S.C. 3911 and 8911) subject to the provisions of Section 212 of the act of 30 June 1932, 5 USC 59a?"

"3. Is a reserve retired officer exempt from the dual compensation limitations, regardless of the law under which he was awarded retired pay, if he once held membership in the Officers' Reserve Corps or National Guard, as distinguished from AUS, even though such membership has been terminated and he now has no de jure membership status within the meaning of 36 Comp. Gen. 808?"

"4. In the event of a negative reply may the decision be applied on a prospective basis in cases where the ruling contained in 36 Comp. Gen. 808 has been followed?"

Tanner Case Cited

The Court of Claims, in its opinion of November 2, 1954, in the case of *Tanner v. United States*, 129 Ct. Cl. 792, held that Tanner, a reserve officer who was receiving retired pay under authority contained in Title III of the act of June 29, 1948, 62 Stat. 1087, was not subject to the dual compensation provisions of section 212 of the Economy Act of June 30, 1932, as amended, 5 U.S.C. 59a, because he had the benefit of the provisions of section 1(b) of the act of July 1, 1947, 10 U.S.C. 371b, which provided that members of reserve components could hold civilian employment with the Government and receive their compensation incident to that employment. "In addition to any pay and allowances to which he may be entitled under the laws relating to the Officers' Reserve Corps." We have been following that case. See 35 Comp. Gen. 497.

After the *Tanner* case was decided by the Court of Claims, the case of *Madden v. United States*, Ct. Cl. 454-55, came before that court. Madden was a member of the Officers' Reserve Corps of the Army but was retired for physical disability under the provisions of section 5 of the act of April 3, 1939, 53 Stat. 557, which provided, among other things, that all officers of the Army of the United States (other than the Regular Army), if they suffered disability in line of duty while in active military service for more than 30 days, should receive the same retired pay as officers of the Regular Army of corresponding grades and length of service retired for physical disability. Before that case was decided, a decision was rendered on February 14, 1957, in the case of *United States v. Toma*, 148 F. Supp. 489, in the United States District Court, Southern District of California, Central Division. Toma was a member of the Officers' Reserve Corps of the Army but received retired pay for disability under the provisions of section 5 of the act of April 3, 1939. The court held, on the basis of the *Tanner* case, that the Government could not recover from him the compensation which he received incident to his civilian employment with the Veterans Administration. A judgment without opinion was rendered on May 8, 1957, in the case of *Madden v. United States* (138 Ct. Cl. 873) in the plaintiff's favor on a stipulation by the parties. We decided to follow the view of the court in the *Toma* case and in our decision of June

11, 1957, B-123382, 36 Comp. Gen. 808, we extended the rule stated in 35 Comp. Gen. 497, to make it apply to cases of reservists whose retired pay is authorized under statutory provisions other than those of Title III of the act of June 29, 1948, in addition to those already within the rule whose retired pay is authorized under that Title. Thus, we decided that the rule announced in the *Tanner* case would apply in cases like the *Toma* case where retired pay was received under the act of April 3, 1939, for any period of employment during which the claimant actually held a *de jure* status in the Reserves.

Case History Told

In the decision rendered on January 14, 1959, by the Court of Claims in the case of *Bowman et al. v. United States*, Ct. Cl. No. 108-58, in favor of Nathan Reed Warthen, plaintiff No. 5, the court stated (referring to its earlier decision in *Series v. United States*, Ct. Cl. No. 353-56, decided March 5, 1958), that the 1947 act, properly interpreted, covers any person who has become entitled to retired pay "by reason of service in a Reserve component." In our decision of May 1, 1959, B-135719, 38 Comp. Gen. 741, we held (quoting the syllabus) that—

"The holding in the case of *Henry L. Bowman et al. v. United States*, Ct. Cl. No. 108-58 (referred to as the *Warthen* case), which further extended the rule in the *Tanner* case, 129 Ct. Cl. 792, to exempt former reserve officers of reserve components of the uniformed services as distinguished from *de jure* reserve officers from the dual compensation restrictions in section 212 of the Economy Act of 1932, 5 U.S.C. 59a, will be followed in the settlement of similar claims for retired pay under Title III of the Army and Air Force Vitalization and Retirement Equalization Act of 1948 by former reserve members for periods while they were concurrently employed by the Federal Government; however, pending further litigation of the issue in the *Leonard* case, 136 Ct. Cls. 686, which deals with a discharged former officer of the Army of the United States entitled to receive disability retired pay under the act of April 3, 1939, 10 U.S.C. 456 (1946 Edition), such claims will not be allowed."

In other words, since that time we have regarded the act of April 3, 1939, as being a law relating to the reserve components within the meaning of section 1(b) of the act of July 1, 1947. We have considered that the rules to be followed with respect to members of the Army of the United States without component were different, however, and that such members entitled to retired pay could receive that pay, irrespective of the dual compensation restrictions of the 1932 Economy Act, during a period of employment, only as long as they continued to have a status in the Army of the United States. That conclusion was based on the provisions of the act of September 22, 1941, 55 Stat. 728, which provided:

"That any person appointed as an officer in the Army of the United States under the provisions of this Act shall receive the same pay and allowances and be entitled to the same rights, privileges, and benefits as members of the Officers' Reserve Corps of the same grade and length of service: . . ."

Payment of retired pay during a period of employment when no Army of the United States status existed, was denied on the basis of the decision of November 7, 1956, of the Court of Claims in the case of *Leonard v. United States*, 136 Ct. Cl. 686, certiorari denied, 353 U. S. 976.

Palmer Case

The officer whose status was considered in the *Palmer* case was appointed and commissioned in the Army of the United States without component pursuant to the provisions of the act of September 22, 1941, mentioned above. On July 12, 1946, he was relieved from active duty and retired for physical disability under the act of April 3, 1939. In accordance with the rules stated above, he was allowed retired pay for that part of his period of employment during which he had a status in the Army of the United States but, on the basis of the *Leonard* case, was denied such pay for the remainder of that period. The court stated that Palmer had no status in the reserve components of the Armed Forces and that he did not receive his retirement pay from laws relating thereto. Hence, it was concluded that his position did not place him within the exemption to the Economy Act as permitted under the *Tanner* case and like cases.

It is our view that the decision of the Court of Claims in the *Palmer* case is tantamount to a conclusion, at least in the circumstances in that case, that the act of April 3, 1939, is not a law relating to the reserve components within the meaning of the rule in the *Tanner* case. The decision in the *Palmer* case creates doubt, therefore, as to

Naval Commanders Discuss NATO Test

ADMIRAL Robert L. Dennison, left, C in C Atlantic/Supreme Allied Commander Atlantic, and V. Adm. Harold T. Deutermann, Commander Second Fleet/Commander Striking Fleet Atlantic, are shown aboard the Second Fleet flagship Northampton following a conference on NATO's fall exercises. The exercises, called FALLEX 1960, will be the largest naval exercises for NATO nations since 1957.

Hound Dog Missile Engines Enable B-52s To Take Off On Shorter Runways

Air Force tests have demonstrated that the take-off run of a B-52 bomber can be "substantially reduced" by utilizing the engines of two North American Hound Dog missiles to give added thrust. Thus the missiles which arm the giant bomber can also give it greater performance.

The tests were made at the Air Force Flight Test Center, Edwards AFB, Calif. Key members in the two-month thrust augment test program were: Capt. Charles F. G. Kuyk, test pilot; Capt. Philip J. Conley, Jr., project officer; and Capt. Charles W. Nyquist, project engineer.

the propriety of paying retired pay under the 1939 act, as amended (now codified as 10 U.S.C. 3687 and 8687), to reservists and Army of the United States personnel and similar personnel of the Air Force, where such persons are otherwise within the dual compensation restrictions of the Economy Act. We find no basis under the language used by the court in the *Palmer* case (and in the concurring opinion) for distinguishing between a member of the Army of the United States paid retirement pay under the provisions of the 1939 act and a reservist paid under the same law. Accordingly, we must conclude that, until such time as the position of the court is clarified, further payments of this type should not be made under those statutory provisions.

In consonance with the views expressed above, you are advised that if a reserve officer is retired for physical disability or otherwise, and becomes entitled to retired pay by reason of service in a reserve component, under statutory provisions other than the 1939 act, as amended, 10 U.S.C. 3687 and 8687, he is not subject to the dual compensation restrictions of section 212 of the act of June 30, 1932, 5 U.S.C. 59a, even though his membership in the Officers' Reserve Corps or the National Guard has terminated. Compare 39 Comp.

Capt. Lambert Of Navy Leaves DoD Atomic Post

Capt. David Lambert, USN, Deputy C of S for Weapons Effects and Tests of the Defense Atomic Support Agency, has been assigned to the Naval Weapons Plant, Washington, D. C.

He has been the senior Department of Defense Staff Officer charged with planning, developing, coordinating and implementing Department of Defense nuclear effects, research and test programs. He supervised and directed the implementation of the Department of Defense portion of such programs as the High Altitude Sampling Program (HASP) from 1957 to 1960, and Operations Hard-tack and Argus in 1958.

During the current test moratorium, Captain Lambert, USNA '33, has shifted emphasis from field testing to the laboratory, as characterized by the development of the Department of Defense-wide Nuclear Weapons Effects Research Program.

Captain Lambert, his wife, Patricia and their three children, David, 18, Sally, 16, and Catharine, 4, live at 1213 Stafford Road, Hollin Hills, Alexandria, Va.

near. The missiles came from the production line at North American Aviation's Missile Division at Downey, Calif., where they are being produced for SAC.

The tests show that Hound Dog-armed B-52s will be able to use many airfields whose runways previously were too short.

Use of the Hound Dog as an auxiliary power plant in no way impairs its operational readiness or the more than 500-mile range since the missile's fuel tanks are replenished from those of the launch aircraft.

Gen. 280. Questions 1, 2 and 3 are answered accordingly.

November Date

To the extent that any of our prior decisions are in conflict with the views expressed herein, such decisions no longer will be followed. It is understood, however, that information as to the retired personnel concerned who might be employed by the Government may not be on file in the administrative offices and that such personnel may have to be contacted before it can be determined whose retired pay should be stopped or reduced on the basis of this decision. While no payments of retired pay known to be inconsistent with this decision are authorized to be made, otherwise proper payments made in good faith prior to November 1, 1960, and prior to receipt of information that such payments would be inconsistent with this decision will not be questioned in the audit of disbursing officers' accounts. Question 4 is answered accordingly.

Sincerely yours,
Joseph Campbell
Comptroller General
of the United States

The Honorable
The Secretary of Defense

MEMO--

DUTY, HONOR, COUNTRY, the historic tenets of West Point, are going to take a sustained beating unless the Army modifies its present security clearance procedures, notably in the area of promotions. As it stands now, Peress security clearances can and do take precedence over the concept of the Honor System at the U. S. Military Academy. In the words of the Army Almanac: "The nourishment of the Honor System at West Point—and in nothing else do cadets and graduates take greater pride—remains at all times the individual and collective trust and responsibility of the cadets."

THE SUCCESS OF THE CADETS in maintaining the prestige of military service is not always duplicated at the Pentagon. The present situation is that a West Point graduate, or an ROTC graduate, or any other officer who receives an Army Commission is subjected to repeated security clearance checks during his career. The system is such that even an officer who holds a "top secret" clearance must be screened for a security check if he is selected for promotion.

NOT MANY PEOPLE KNOW IT, but this applies to all ranks. An officer who is selected for brigadier general or major general is screened for security before his name goes to the President. This has been the case for every promotion selection since the celebrated Peress Case of 1954.

SOME MAY UNDERSTAND why the Army must run such security screenings for all promotion selections, but few will understand why the clumsy procedures now in effect cannot be changed. The Army's practices permit ready identification of officers who have run into some kind of security difficulty, often entirely because of an administrative problem over which the individuals concerned have no control whatsoever.

SIX YEARS AFTER THE PERESS CASE and the furor it created, Secretary of the Army Wilber M. Brucker, who was Defense Department General Counsel during the McCarthy hearings, or Secretary of Defense Gates, if the Army fails to take action, should order a new inquiry into officer promotion security clearance procedures. The hope in the Armed Forces would be that in such an inquiry the primary emphasis would be on Duty, Honor, Country and not on the Peress Case.

THE ARMY WAS ADAMANT this week in insisting that it would not make available the names of selection board members, even after more than a year's time. The Journal asked for the names of the members of the 1958 selection board which chose majors for lieutenant colonel. The request was rejected. No such inquiry would need to be made to the Navy, because that Service makes known the membership of its boards immediately. So does the Marine Corps.

THE REASON FOR WITHHOLDING names of selection board members, the Army has explained, is that this procedure safeguards the members from any pressures. Here again, of course, is an instance where the Duty, Honor, Country concept is undermined. There is the implicit suggestion in the Army's policy that board members, who take an oath before beginning their task, are subject to outside influences. It also suggests that attempts would be made to exert pressure on a board.

COACH BEN MARTIN of the U. S. Air Force Academy football team, who was graduated No. 6 in a class of 1045 at the U. S. Naval Academy in '45, is leading a team with brains as well as brawn. A prospective first team at Colorado Springs has an academic average of 83.3, topped by Guard Randy Cubero's 88.69. Combined average of the Falcon squad is 86.03.

THE OPPOSITION OF SENATOR STEN-NIS (D-Miss) was, of course, the primary reason why the House-passed Pay Equalization Bill died in the Senate. But there were other factors. The Pentagon's failure to rally behind the President's proposal and push it vigorously permitted misinformation to influence the attitude of Senate Armed Services Committee members.

SENATOR FRANCIS CASE (R-S.D.) has told The Journal he was advised that "recomputation for all retired personnel would result in a reduction of retired pay of from 1 to 19% for Army and Air Force captains and those of lower rank, while increases of from 15 to 74% would be given to those in the rank from lieutenant colonel to chief of staff." Had the Pentagon been alert to the need of winning full understanding and support for Pay Equalization, it would have been easy to point out that all pay legislation provides a "savings clause," and that no person would suffer a pay loss because of the recomputation.

EVERYBODY SEEMS TO BE FLYING the Army's VZ-2 tilt-wing VTOL research aircraft except Army pilots. Vertol, builder of the aircraft, has let it be known that the first military pilot checked out in the Army's plane was Maj. Don Segner, USMC, of Patuxent River Naval Station, Md. Maj. Walter Hodgson, USAF, of Edwards AFB, also has flown it. Others include a Vertol test pilot and three NASA pilots—but no Army fliers. Vertol designed and built the craft for the Army under a contract handled through the Office of Naval Research.

NAVAL LEADERS ARE PLEASED with a rising retention rate among NROTC graduates for career service. Because of nation-wide competitive examinations for NROTC appointments, the Navy is obtaining a high caliber participation in the campus program. In recent years, the Navy has found it difficult to retain more than 8 to 10% of these graduates beyond their obligated service. Latest statistics show a retention rate of about 25%, and up to 44% among NROTC graduates who undergo costly flying training.

ONE MAJOR PROBLEM in the NROTC retention drive is that civilian industry, aware that these young men have come through rugged competition and a tough scholastic course, make the NROTC graduates a prime target for job recruitment upon completion of obligated service.

VICE PRESIDENT NIXON, during his hospitalization at Walter Reed General Hospital, was charged the standard per diem rate of \$34 that is applicable to civilians and members of Service families treated in military hospitals. The Budget Bureau has advised the Pentagon that the \$34 charge does not cover the full cost.

ACTUAL COST OF HOSPITAL CARE for civilians in Service facilities is \$44, according to BoB officials. They say present estimates do not cover all costs, including retirement benefits paid to hospital personnel. Vice President Nixon paid for his hospital care from his own pocket. The Services budget for the care of military family members.

FOR MILITARY PERSONNEL, the per-diem hospitalization rate is budgeted at \$23. The \$23 and \$34 figures will be used in the fiscal '62 budget, but there may be an increase in the '63 budget.

LT. GEN. HERBERT B. POWELL, Third Army CG at Ft. McPherson, Ga., who has been designated Continental Army Command CG at Ft. Monroe, Va. (see Page 3), will be the Army's first four-star aviator. He completed flying training while assigned as CG of the Infantry Center at Ft. Benning, Ga. Before assignment to the Third Army post, General Powell was Deputy CG of CONARC for Reserve Forces.

THE IMPORTANCE OF MAINTENANCE ENGINEERING is pointed up in a newly issued Air Force pamphlet (No. 66-1-1). Maj. Gen. T. Alan Bennett, Maintenance-Engineering Director, Office of the Deputy CofS, Materiel, says that this functional area uses or controls about one out of every three men in the Air Force and four out of every 10 operating dollars.

THE BOLTÉ COMMITTEE, which is considering personnel disparities in the Services, need look no further than its own membership to uncover one problem. The law permits the Navy and Marine Corps to recall a limited number of retired admirals and generals to active duty without this counting against the active duty ceilings. Not so in the Army and Air Force. As a consequence, the Army and Air Force members of the Committee, including General Charles L. Bolté, USA-Ret., are serving on a "consultant" basis.

ANOTHER AREA which the Bolté Committee is certain to survey concerns the loss of pay suffered by many Service people because of delays in the confirmation of their promotions, through no fault of their own. As it stands now, an Army or Air Force officer, whose promotion confirmation is delayed on Capitol Hill, or who cannot complete a required physical examination—possibly because of injury in the line of duty—cannot receive the pay of the higher grade until he actually is sworn in for his higher rank. Congress wisely has authorized the Navy to provide the increased pay as of the date that the officer makes his number. The Navy procedure should, of course, be made applicable to all the Services.

ON THE OTHER HAND, the Navy is penalized when it comes to computation of three and four-star officers. The law provides that the Army and Air Force may have 15% of their total general officers in the top two ranks. The Navy is restricted to 15% of line flag officers. This disparity is hitting the Navy particularly hard because of the increasing requirement to assign senior officers to billets outside the Navy. The latest example is the assignment of RADM. Edward N. Parker to be Deputy Director of the Targeting Center at Offutt AFB, Nebr. Secretary of Defense Gates has said this will be a three-star billet.

OF THE TOTAL FLAG strength of 287 officers, the Navy has 73 assigned to duties outside the Naval Establishment. As a result, the Navy now has some 60 flag billets which are being filled by captains.

GENERAL WILLIAM H. SIMPSON, USA-Ret., Chairman of the San Antonio Retired Officers Association Executive Committee, in a last ditch move to gain Senate action on the Pay Equalization Bill prior to adjournment, sent dispatches to Vice President Nixon and Senator Kennedy. The General called upon the two Presidential candidates to take "appropriate action" to get the bill before the Senate for a vote.

FOUR DAYS LATER, General Simpson had a reply from Vice President Nixon which stated in part: "I am wholeheartedly in agreement with your contention which is vigorously supported by President Eisenhower that the Congress should at once correct the unjust pay discrimination against military personnel who were retired prior to 1 June 1958. My feeling is that this legislation should have been passed many months ago. I have believed," said Mr. Nixon, "that the Congress would surely not perpetuate the unfair treatment of this group while it leisurely re-examined the whole complicated Service retirement problem. . . ."

THERE WAS NO REPLY from Senator Kennedy to General Simpson's wire, which asked for "a public announcement that you favor this bill" and assurance that steps would be taken to win its release from the Armed Services Committee.

No Officer* Can Afford to be Without the Coverage of USAA Insurance Save on Insurance Costs with USAA!

Claims for accidents, damage and varied losses are in evidence every day—and insurance is needed to protect you and your family against these costly demands including legal and medical expenses.

Away back in 1922 a group of U.S. Armed Forces officers recognized that insurance costs could be a considerable bite in the personal budget. They organized United Services Automobile Association to make automobile insurance available to officers at cost.

Since that time more than \$75 millions of dollars have been returned in dividends and more than 600,000 USAA policies are now in force.

Active and retired officers continue to manage and direct USAA. Selling is done by mail and no commissions are paid.

USAA understands the problems of those in the service. Not only do USAA policyholders* enjoy maximum protection at liberal savings but they are covered in almost every corner of the world where the U.S. Armed Forces serve.** Claims are settled fairly and quickly even in the most remote areas of the world.

Enjoy the protection and savings offered with these USAA policies:

Automobile Insurance

Comprehensive Personal Liability Insurance

Gives protection from the most common claims that might be filed against the insured and members of his family for injury or damage to person or property.

Household Goods and Personal Effects Floater

Insurance protection for personal property and family possessions against fire, transportation, windstorms, other extended hazards, and theft. Covers anywhere in the world at no extra cost.

Enjoy dependable insurance protection at low cost with USAA. Fill in the coupon and get the facts today.

Here's Your Home Site

Retired Officers agree—
"The Monterey Peninsula Country Club Area is the Place to Buy, to Build"

And with good reason! This 5000-acre beauty spot offers discriminating officers the full, rewarding retirement life they've dreamed of.

Buy now, build later. Special purchase privileges can be suited to your present circumstances, while controlled development sustains the value of your property.

Sites from ¼-acre to several acres are adjacent to the spacious Country Club, with its congenial golf course and bathing pool.

And year round outdoor recreation is matched by the convenience of facilities at the nearby Monterey Presidio Fort Ord, and Naval Postgraduate School.

Investigate now. Postcard brings you free 20-pg. illustrated brochure from
DEL MONTE PROPERTIES CO.

Here's Authoritative USCOA Word; Average Widowhood Years Told

(The following informative article on the Uniformed Services Contingency Option Act, titled "Consider The Odds," was written by Maj. Casper Berger, TC, and Professor James J. Chastain of the University of Omaha Insurance Department. It is published in the September issue of the "Army Information Digest," the official magazine of the U. S. Army.)

MEASURING the odds is important in individual financial affairs just as it is in poker, business, or war. Yet many excellent poker players, outstanding businessmen, and military experts who carefully consider the odds in other areas fail to think in terms of probabilities in their personal financial affairs. One example is the attitude of a great majority of service personnel regarding widowhood for wives of service retirees.

The person in the service who has not had the possibility of his wife's becoming a widow pictured vividly to him by a life insurance agent has probably been on an Antarctic expedition all his military career. But what of the probability? What are the chances that a service retiree will outlive his wife? If his wife does become a widow, how long will she be likely to live? These probability questions are important in personal financial planning. But answers to them are not always available, and where they are available they are frequently misunderstood.

It is common knowledge that men have a life expectancy of about seventy years

and that women can expect to live about five years longer. Based on these facts it seems reasonable to think that the odds are that a wife who is about the same age as her husband will be a widow for about five years. But this is not the case, for life expectancy statistics are deceptive.

Actually, life expectancy is not a fixed figure, for there is more truth than is immediately apparent in the simple statement that the longer a person lives, the older he is likely to be when he dies. A person who has a life expectancy at birth of seventy years has an expectancy of forty-three years if he reaches age thirty, of seventeen years if he reaches age sixty, and of three years if he reaches age ninety.

If a person retires from the service when he is 47; if his wife is the same age; and if both are in average age physical condition, the probability is that she will outlive him by about five years. Service personnel frequently place great emphasis on this five-year figure. It does not seem like a long time; hence the problem of providing income in case the wife becomes a widow does not appear to be a serious financial one. But the five year average figure is misleading. It conceals the fact that thirty to fifty per cent of wives do not outlive their husbands but that those who do are likely to live much longer than five years. The fifty to seventy per cent of wives who do become widows are likely to live for ten to fifteen years longer.

Charting the Probabilities

The accompanying table showing probability of widowhood and length of widowhood for non-disability service retiree wives was computed by Mr. Robert J. Myers, Chief Actuary of the Social Security Administration, as one of the three members of the Board of Actuaries for the Uniformed Services Contingency Option Act. The non-disability retiree who retires at age 47 and whose wife is the same age can expect to have his wife outlive him in six cases out of ten. For those wives who become widows, some will die a year or two after their husbands and some will live to be ninety but the average length of widowhood will be 13.8 years!

Basic Principles

Good risk managers in poker, business, war, and family finances try to follow these three important rules:

1. Always play the odds.
2. Don't risk much for a little.
3. Don't risk more than you can afford to lose.

Service retirees who do not make provision for a relatively long widowhood for their wives are playing against the odds. At best, odds are even but if the wife is the same age as, or younger than, the husband the odds are less than even.

Although 50-50 odds are common in determining who will pay for coffee, and would be considered excellent in Las Vegas, most service personnel prefer not to allow the financial futures of their wives to ride at such odds. The retiree is also risking much—the financial dignity of his widow—for a relatively small amount of additional present income. Most are also risking more than their widows can afford to lose. The odds are bad and the stakes are high.

Alternative Solutions

It is not surprising that, in discussing this financial problem, the life insurance agent usually presents commercial life insurance as the best solution for it actually is the only solution in some situations. Two alternative solutions, however, are frequently not given enough careful consideration by prospective retirees.

One of these solutions, unfortunately available to very few retirees, is money. It has been said that nothing offers as much security as a million dollars. Even \$100,000 carefully invested or in trust

Age of non-disability retiree at retirement	Wife five years younger than husband		Wife same age as husband		Wife five years older than husband	
	Probability that wife will out- live her husband	Average years of widowhood	Probability that wife will out- live her husband	Average years of widowhood	Probability that wife will out- live her husband	Average years of widowhood
42	.71	16.2	.60	14.2	.48	12.6
47	.71	15.8	.60	13.8	.48	12.1
52	.71	15.2	.60	13.1	.48	11.3
57	.71	14.3	.60	12.1	.47	10.2

offers security. Money has the added advantage of minimizing all other family financial risks as well as that of widowhood for the wife. But, as we have already indicated, this is not a solution available to the prospective retiree who has lived half his life without saving or inheriting the necessary money.

In 1953, however, Congress recognized the serious financial problems arising out of the death of service retirees. If the person died the day before retirement his widow was eligible for a lifetime income as Dependency and Indemnity Compensation (DIC). If he died after retirement of a non-service-connected disability there was nothing to take the place of DIC. In order to partially solve the problem, the Uniformed Services Contingency Option Act (USCOA) was enacted, to provide a second alternative solution available to all members of the Armed Forces.

The intention of Congress was to provide "actuarial equivalents," that is, to provide a plan that would take in about as much money from living retired persons as it paid out to widows and dependent children. This goal has been substantially achieved during the first four years of operation of the program.

The advantages of the program are that the individual can now equitably redistribute his retired pay so as to give protection to his survivors, with the administrative costs of the program being borne by the Government. By using USCOA, he participates in a program specifically tailored to fit his need and saves certain selling expenses, taxes, and other administrative expenses that would be required if he attempted to do the same thing through a private insurance company.

Reduced Retired Pay

USCOA, simply stated, permits a member of the Armed Forces to elect to receive a reduced amount of pay at time of retirement, in order that designated surviving members of his immediate family may be entitled to an annuity in the event of his death after retirement.

Members of the Armed Forces who were already in a retired status when USCOA became available in 1953, and those members who already had over eighteen years of service for pay purposes, were initially afforded an opportunity to participate in the program. Thereafter, the law requires all members of the Armed Forces, whether on active duty or in a reserve status, to make a decision regarding their participation in the program before the completion of eighteen years of service for pay purposes.

Options Offered

The Uniformed Services Contingency Option Act provides four basic options for those who elect to participate:

Option 1. This provides a monthly payment to the retiree's widow until her death or remarriage. Under this option, the widow must have been the lawful wife of the retired member at the date of retirement.

Option 2. This enables the retiree to include his eligible dependent children, including step-children and adopted children, under the annuity program. Monthly payments are made in equal shares to or for the children until they reach age 18 or marry. The annuity is continued after age 18 for mentally or physically handicapped children as long as they remain incapacitated and are unmarried, and providing the handicap existed before the child's eighteenth birthday.

Option 3. This provides an annuity for the member's widow until her death

or remarriage under the same conditions stated under Option 1. However, subsequent to the death or remarriage of the retiree's widow, this Option permits the continuation of payments to eligible dependent children for so long as there remain any such children surviving who meet the requirements stated under Option 2.

Option 4. This is a provision that no further deductions shall be made from the retired pay of the retiree, when there is no longer an eligible beneficiary. This option is used only in conjunction with the first three options providing the Armed Forces member elects to include it in his individual USCOA program.

Payments to the dependent survivors of the retiree under Options 1, 2, and 3 may be one-half, one-quarter, or one-eighth of the retiree's reduced retired pay. Members of the Armed Forces may elect Option 1, 2, or 3 (with or without Option 4), or may choose both Options 1 and 2 (with or without Option 4) as a combination. Option 1 or 2, however, cannot be combined with Option 3.

Benefits Involved

The 47-year-old non-disability retiree previously described could choose Options 1 and 4 with half of his retirement pay to his widow by having his retired pay reduced by 10 per cent. In effect the retiree and his wife are sacrificing 10 per cent of their retirement pay for an average of 27 years (his life expectancy) in order to have the widow receive 42 per cent for an average of an additional 13 years. Or if the one-eighth option is chosen, a retirement pay reduction of less than 3 per cent would assure the widow of a life income of more than 12 per cent.

It is a matter of simple multiplication to see that in choosing one of these options, the retiree is playing with the odds rather than against them. He is risking a little reduced present income for the possibility of much income to his widow. A retired pay reduction of 3 per cent to 10 per cent is not more than he

can afford to lose. Thus he is satisfying all the principles of good risk management in electing a USCOA option.

The retiree who wishes to compare USCOA with commercial life insurance should compare rates for commercial survivorship annuities which are like Options 1 and 4 of USCOA except for the remarriage clause. For most ages the survivorship annuity costs at least 50 per cent more than USCOA.

The disability retiree pays more for USCOA but the experience to date indicates that, even so, he is getting an "actual bargain."

Whatever the decision with regard to USCOA, the retiree will be more sure of himself if he has studied the probabilities. For only by considering the odds can the wisest decisions with regard to individual financial affairs be made.

Col. Burkholder With 1st Army

Col. James B. Burkholder is the new Deputy Comptroller of the First Army at Governors Island, N. Y.

His last assignment was with the Personnel Services Division, Office of the Deputy CofS for Personnel, Department of Army.

Colonel and Mrs. Burkholder have three sons and three daughters.

Lt. Col. Marsh to Walter Reed

Lt. Col. Edwin S. Marsh, a former information officer with the Office of the Army Surgeon General in Washington, has been named Information Activities Officer at Walter Reed Army Medical Center.

FIFTH OF A SERIES INTRODUCING

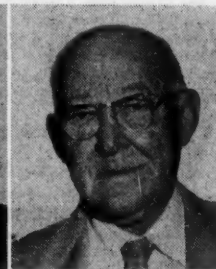

"Your GPM man"

Lane E. Clendenin

Kenneth A. Willey
San Diego, California

For GPM this has been a wonderful quarter-century. We have seen great growth in service, in business and in coverage. We like to feel that our policy of growing through sound and conservative insurance practices and management and never-ending search for better ways to serve will reflect in an even greater growth in the years to come. But, the most important factor in our company is the representative who serves you. "He's a GPM man" means to us and you, a man who is qualified by experience and training to serve you better. A GPM man is a specialist in military insurance problems. He has the personal background and the individual training to advise how best you can get the protection and savings plan that fits your personal need—call him—you'll be glad you did!

BACK FROM O'SEAS:

Col. Waller At Shaw From Izmir Duty; Iran To First Army Post For L/C Perry

Col. Henry H. Waller, Jr., recently returned from Izmir, Turkey, has been named Ninth Air Force Deputy for Materiel, Shaw AFB, S. C. From 1947 to 1950, he was Director of Intelligence for the Ninth. He is married to the former Merrill Thompson-Jones of West Point, Va. They have one son, Dale, 14.

Lt. Col. Edwin A. Perry has joined the First Army G-2 Section as Chief of Operations & Training Division at Governors Island, N. Y., from duty as Infantry Advisor, MAAG.

Col. Edward Gelderman, returning from Japan, has joined the Installations Division of the Office of the Quartermaster General in Washington, D. C.

Many Service people returning to the U.S. use the "Back From O'Seas" column in The Journal to advise friends of their new address.

Col. Douglas H. Lane, has been assigned to Fourth Army headquarters, Ft. Sam Houston, Tex., with the Transportation Section, arriving from Taiwan where he served two years as J-4 of the Taiwan Defense Command. Prior to his overseas assignment Colonel Lane commanded the Charleston, S. C., Transportation Depot.

Colonel Lane resides at 437 Graham, Fort Sam Houston, with his wife, Dalphene, and two daughters, Joan, 14, and Mary, 10. A 20-year-old son, Jerry, is attending The Citadel at Charleston, S. C.

Maj. Robert L. Burch, recently returned from Korea where he was Adjutant of the Eighth Army Personnel Center, is Chief of the Communications Branch, Adjutant General Section, Fourth Army, Ft. Sam Houston, Tex.

With his wife, Ierta, and six children, Robert 11, David 9, Sandra and Linda, 7, John, 3, and Bonnie, 1, he resides at 226 E. Radiance Drive, San Antonio.

Col. Orval J. Baldwin has been assigned as Deputy Depot Commander and Director for Post Operations at Atlanta, Ga., General Depot after duty as Commanding Officer of the Army Procurement Center, Frankfurt, Germany. He is married to the former Nelle Marie Rhea of Kansas.

Lt Colonel
Smith, Bartholomew P, MPC, pd (90%).

Lt. Col. Frederick W. Hess of 12 Allwood Road, East Brunswick, N. J., has reported to the G-2 (Intelligence) Section of First Army, from Baden-Baden, Germany, where he had served as the Chief of the Army Liaison Group to Headquarters French Forces, from July 1957 through August 1960.

Colonel Hess is married to the former Helen Bradford of Brooklyn, N. Y. They have five children: Frederick W., Jr., 17; Helen Marie, 12; John, 8; James, 5; and Peter, 2. Colonel Hess holds the degree of Doctor of Law & Economics from the University of Vienna and the Bachelor of Laws degree from Chicago-Kent University.

Col. Joseph L. Sullivan, recently returned from Iceland Defense Force at Keflavik, has been assigned to Shaw AFB, S. C. as Director of Inspections, Ninth Air Force Headquarters.

Colonel Sullivan is married to the former Gloria Lewis of New York City. They have four children, John L, 19, Joseph L, Jr., 17, James E, 13, and Katherine L, 11. The Sullivans reside in Sumter at 28 Woodside Road, Sumter, S. C.

Col. Milton G. Schneider has been named Adjutant General of the Army Infantry Center at Ft. Benning, Ga., following a year's tour as Deputy A. G. of Eighth Army in Seoul, Korea. He succeeds Lt. Col. Earl F. Cole, who departed Benning in June to be Deputy Eighth Army AG.

Colonel Schneider enlisted in the New York National Guard in 1930. He entered active duty in May, 1942, and was commissioned a second lieutenant on completion of Officer Candidate School at Fort Benning eight months later.

Maj. Charles F. Spaulding II is the new Operations Officer for the MATS 75th Air Transport Squadron at Travis AFB, Calif., reporting from Keflavik, Iceland. Major Spaulding, his wife Margaret, and two sons, Charles and Harold, reside on the base.

Maj. Michael H. Sulak has been named Chief of the Fourth Army Medical Laboratory at Ft. Sam Houston. He arrived from Landstuhl, Germany, where he was Commanding Officer of the 4th Medical Laboratory, and Chief of the Department of Pathology.

Project Mercury Mission For Veterinarians

TWENTY-ONE Army and Air Force Veterinary officers have been assigned to animal recovery operations of Project Mercury.

They will aid in the training and other support necessary to put monkeys and a chimpanzee into space prior to the launching of the first astronaut in the Mercury capsule.

Air Force veterinarians assigned to the project include: Majors Walter E. Brewer, Patrick AFB, Fla., Project Officer; Richard E. Benson, AEC, Germantown, Md.; Robert J. Young, School of Aviation Medicine, Brooks AFB; George D. Smith, NASA, responsible for animal phase of Mercury; Captains George L. Andstadt, School of Aviation Medicine, Brooks AFB, Tex.; Franklin H. Kriewaldt, Walter Reed Army Institute of Research, Washington, D. C.; and Ronald L. Persing, Hanford Works, Richland, Wash.

Also assigned are the following veterinarians at Holloman AFB, N. M.; Maj. John D. Mosely; Captains James E. Cook, DePaul J. Corkhill, Jerry Fineg, Rudolph A. Hoffman, and Lieutenants Eldon E. Miksch and William E. Britz.

Army officers assigned to the project are: Lt. Col. Robert M. Nims, Fitzsimons General Hospital, Denver; Majors Bruce S. Ott, Letterman General Hospital, San Francisco; Gilbert L. Raulston, Surgical Research Unit, Brooke Army Medical Center, Ft. Sam Houston, Tex.; Edmund L. Fountain, AEC, Las Vegas; James B. Young, and First Lieutenants Bud C. Tennant and C. W. DeLannoy, Walter Reed Army Institute of Research.

SCHOOL AND CAMP DIRECTORY

The Schools and Camps listed below are effectively equipped to care for the educational and recreational needs of the children of members of the services and this Directory is recognized as an authentic and reliable aid to service parents in solving the problem of child education. For details as to the Schools listed in this Directory address them directly or communicate with the Army Navy Air Force Journal Dept. of Education, 1710 Conn. Ave., N. W., Washington 9, D. C.

ALABAMA

MARION INSTITUTE

119th year. Fully accredited four-year Preparatory School and Junior College in the heart of the Deep South. Special preparation for Army, Navy, and Air Force Academies. Fully Military with Senior R. O. T. C. Small classes, Honor System. Sports. For view book write:

Ft. Bragg Wives Elect Mrs. Cato

THE Woman Club of Ft. Bragg, N. C., begins the new season with a Tea 13 September. The new officers are, left to right, Mesdames Raymond Cato, President; Joseph Decker, 1st Vice President; T. Iulucci, 2d Vice President and James Ingram, Treasurer, Mrs. Wallace Beulow, not shown, will serve as Secretary.

Marine Wives Will Open New Season; Army Daughters Plan McNair Show

THE Washington Marine Officers' Wives' Club will hold its first meeting of the season at the Army-Navy Country Club, Wednesday, 21 September, at 10.30 a. m. Mrs. August Larson, Chairman of Special Activities, will present information on the many varied educational and recreational activities in the Washington area.

An informal coffee will substitute for the usual luncheon meeting so that members will have a better opportunity to renew old acquaintances and meet the newly elected officers. The officers for the 1960-61 year are Mesdames John C. Munn, President; James Taul, Vice-President; Donald L. Mallory, Corresponding Secretary; William Wentworth, Treasurer, and Arthur L. LaRoche, Recording Secretary.

The Senior Chapter of the Daughters of the U. S. Army will have its annual fashion show and luncheon 27 September at the Ft. McNair Officers' Club when Julius Garfinckel will present the styles. The affair is given yearly for the benefit of the Eugenia Bradford Roberts Memorial Scholarship and Welfare Fund.

All Services wives and their friends are most cordially invited to attend and

the price will be \$3.50 per person. Reservations may be made by sending a check and self-addressed envelope to Mrs. Robert Stumpf, 5840 Lowell Ave., Alexandria, Va.

The Navy Doctors' Wives Club held its first luncheon meeting of the fall season Thursday, 8 September at 12 noon in the Officers' Club, NNMCC, Bethesda, Md.

Mrs. John E. Nardini, newly-elected President of the Club presided and Board Members, headed by Mrs. Henry C. Hunley and Mrs. Ned H. Wiebenga, were hostesses. Mrs. Bartholomew Hogan, wife of the Navy Surgeon General and Honorary President of the Club, welcomed members and guests.

The program, arranged by Mrs. Thomas Leber, was a discussion on Wine Information by Mr. Walter H. Lubson, Regional Supervisor of the Wine Advisory Board of the American Wine Association.

Special guests of the Club were the wives of the new Internes at the Naval Medical Center, and other guests honored were the Nurse Corps officers and wives of Medical and Dental Corps officers from the Armed Services of Foreign groups.

Mrs. Dews Leads Quartermaster Wives

HERE are, left to right, the 1960-61 officers of the Quartermaster Women's Club, Washington, D. C.: the Honorary President, Mrs. Andrew T. McNamara; President, Mrs. Omer Dews; 1st Vice President, Mrs. Felix Gerace; 2d Vice President, Mrs. Walter Smith; Recording Secretary, Mrs. John Galaway; Corresponding Secretary, Mrs. Jack Hamlin; Treasurer, Mrs. Joseph Thomas; and Assistant Treasurer, Mrs. Robert Stiles.

FLYING CLASS 41-G PLANS BOLLING REUNION

THE 19th Annual Reunion of Flying Class 41-G will be held at Bolling AFB Officers' Mess, Washington, D. C., at 6:30 p.m. on 24 September. It is announced by Col. George L. Abel, Chairman of the Reunion Committee.

The Class was graduated 26 September, 1941 at Barksdale, Brooks, Craig, Kelly, Luke, Mather, Maxwell and Stockton (then) Army Air Fields.

The 41-G Class organization, the largest of its kind, was organized in 1952 at Washington, D. C. It now boasts a membership of over 425 active members, 141 of whom are civilians, the remainder on active duty with the Air Force.

Reservations can be made with Colonel Abel, 31 Elizabeth Lane, Fairfax, Virginia, Telephone—CRescent 3-1798.

Service Weddings and Engagements

MISS Josephine Walton Polk, daughter of Brig. Gen. (USA) and Mrs. James H. Polk of 2427 Ft. Scott Dr., Arlington, Va., was married to Mr. Jonathan David Schwartz, jr., in an evening ceremony at St. Alban's Episcopal Church, Washington, D. C., 3 September. The bridegroom is the son of Mr. and Mrs. Schwartz of El Paso, Texas.

Given in marriage by her father, the bride chose as her maid of honor Miss Ann Fox, daughter of Capt. and Mrs. Henry H. Fox, Norfolk, Va., and her bridesmaids included Misses Joan Henry, daughter of Brig. Gen. and Mrs. Frank S. Henry, her cousin, Sally Wilson, daughter of Col. and Mrs. Arthur H. Wilson of Buenos Aires, Billy Howland and Benson Lightner, daughter of Cdr. and Mrs. T. A. L. Lightner, Argentina, Nfld. Best man for the bridegroom was Mr. Ron Gillett and ushering were Messrs. James Polk, III, brother of the bride, William Wright, son of Maj. Gen. and Mrs. W. H. S. Wright, John Meckenstock, David Whitten, Dolf Hatfield and Charles White.

Mrs. Schwartz, granddaughter of Mrs. Harding Polk of Washington, D. C., and the late Colonel Polk, and Mrs. Charles H. Leavell of El Paso, Tex., and the late Mr. Leavell, attended the Sorbonne and the College of William and Mary. Her bridegroom is a student at Cumberland Law School, Lebanon, Tenn., where, following a Bermuda honeymoon, he will continue his law studies. The couple plans eventually to establish permanent residence in El Paso.

BARCLAY-KEY — Miss Marian McRae Key, daughter of Mr. J. W. Key of Texas City, Tex., was married to Mr. Douglas Hines Barclay, son of the Deputy Commanding General of the Army Ordnance Missile Command at Redstone Arsenal, Ala., Maj. Gen. and Mrs. J. A. Barclay, at the First Methodist Church, Texas City, 3 September.

Mrs. Barclay

Given in marriage by her father, the bride was attended by Mrs. Earl K. Newcomer, jr., and Miss Lucy Ellen Kay, her two sisters, as matron and maid of honor, and by Misses Beverley Latham and Ann McEachern as bridesmaids. Mr. J. A. Barclay was best man for his brother, and ushers included Messrs. W. K. Wilde, C. D. Wilde, Walter Conrad and Jim Dunning.

Granddaughter of the late Senator and Mrs. W. H. Key, sr., Mrs. Barclay attended Southwestern University and was graduated from Auburn University, where she was a member of the Phi Mu sorority. Her husband is a senior student at Auburn University and a member of the Phi Kappa Phi fraternity. He and his bride will reside at Auburn, Ala., while he completes his senior year.

McMORROW-CANNON — Col. (USA) and Mrs. Linden Kinder Cannon of 519 Ripley St., Alexandria, Va., announce the marriage of their daughter, Linda Catherine, to Lt. Thomas Francis McMorrow, USA, son of Brig. Gen. (USA) and Mrs. Francis Joseph McMorrow, 4351 No. 26th St., Arlington, Va., in a morning ceremony and Nuptial Mass 3 September at the Post Chapel, Ft. Myer, Va.

The bride, who was given in marriage

by her father, had as her maid of honor her twin sister, Miss Selby Cannon, and Misses Margaret M. McMorrow, Mary F. McMorrow, sisters of the bridegroom, Mary L. Castonguay, cousin of the bridegroom, Sarah R. Myers, Sharon A. Buchanan and Connie Clark as bridesmaids. Lt. Kevin J. O'Neill, USA, son of Lt. Gen. and Mrs. Edward J. O'Neill, served as best man and ushers were USMA '59 classmates of the bridegroom.

CHALMERS-SORLEY — Mrs. Louise Barnes Sorley of San Antonio, Tex., and Col. Merrow Egerton Sorley, USA-Ret,

Photo by Glogau
Miss Sorley

of Washington, D. C., have announced the engagement of their daughter, Judith Manard, to Mr. Douglas Alexander Stewart Chalmers, son of Mr. and Mrs. Earl John Chalmers of Portland, Ore. Granddaughter of Col. Lewis Stone Sorley, USA-Ret, of Washington, and the late Mrs. Sorley, the bride-to-be was graduated from St. Mary's Hall, San Antonio, and from Sweet Briar College, where she was President of Student Government. She is now engaged in research at Peter Bent Brigham Hospital in Boston. Her fiancé attended Lewis and Clark College, was graduated from Oregon State University and, after a year of graduate study at Dartmouth College, he served three years as a lieutenant (jg) in the Navy. He is now a student at the University of Oregon Medical School at Portland.

A December wedding is planned.

DENNEHY-REED — St. Ignatius Church, Chestnut Hill, Mass., 1 September was the setting for the marriage of Miss Barbara Reed, daughter of Maj. (AUS-Ret.) and Mrs. Henry Cyprien Reed, Box 404, Rye Beach, N. H., and Mr. John Lee Dennehy, son of Mr. and Mrs. Philip F. Dennehy of Brighton, Mass.

Mrs. Dennehy, a graduate of Fisher Junior College, Boston, is presently employed as private secretary to the President of the American Baseball League. Her fiancé, who was graduated from Boston College's School of Arts and Sciences, is a member of the Army Reserve and is associated with the Coca-Cola Bottling Co., of Boston.

The couple will reside in Framingham, Mass.

Mrs. Dennehy

BURGE-JENNINGS — Miss Sue Jennings, daughter of Lt. Col. and Mrs. John W. Jennings of Ft. Sill, Okla., was married to Lt. Robert Paul Burge, 14 August at the Old Post Chapel, Ft. Sill. The bridegroom is the son of Col. (Ret.) and Mrs. Paul Burge of Greenhaven Farm, Blackwater, Mo.

Mrs. Burge attended the University of Oklahoma, where she was a member of the Kappa Alpha Theta sorority. Her

husband attended Kemper Military Academy, was graduated from the University of Missouri and was a member of the Sigma Nu fraternity. He is stationed with the 2d How. Bn., of the 17th Art., at Ft. Sill.

GAREY-BRIDGERS — Mr. and Mrs. John Kennedy Bridgers of Goldsboro, N. C., announce the marriage of their daughter, Barbara Fort, to Capt. George F. Garey, USAF, son of Mrs. Raynor Garey, North East, Md., and the late Colonel Garey, USA-Ret., on 13 August at St. Mary's Anglican Church, Lakenheath, England.

Mrs. Garey is a graduate of the Women's College of the University of North Carolina. Captain Garey, who attended the University of Delaware and was graduated from the USMA in '53, is now assigned to the 48th Wing of the Tactical Air Command at Lakenheath.

Photo by Ball
Mrs. Garey

DUDLEY-NATZKE — Miss Dorothy Ann Natzke, daughter of M/Sgt. (LtCol-Res) and Mrs. Richard Heffener Natzke, Ft. Knox, Ky., was married to Mr. Michael Allen Dudley, son of Mr. and Mrs. G. Steele Dudley of Winchester, Ky., at the Methodist Church, Morehead, Ky., 3 September.

Attended by Miss Helen Ann Houck as maid of honor, the bride chose Mrs. John W. Fannin, Jr., and Miss Arlene D. Shadrach as her bridesmaids. Mr. Dudley served as his son's best man and ushers included brothers of the bridegroom, Messrs. G. S. Dudley, Jr., A. C. Dudley, his brother-in-law, R. W. Hewson, Jr., and N. P. Van Meter, Jr.

Following a wedding trip, the couple will be at home on the campus of the State College at Morehead, where Mrs. Dudley will be a senior student and her husband is a member of the faculty.

FERRIS-GOATLEY — The Post Chapel, Camp Leroy Johnson, La., was the scene of the afternoon ceremony 27 August uniting in marriage Miss Mary Elizabeth Goatley and Lt. Merrill Paul Ferris. The bride is the daughter of Col. and Mrs. Francis John Goatley of Camp Leroy Johnson, and parents of the bridegroom are Senator and Mrs. Albert Elwood Ferris of Milton, Ind.

Colonel Goatley gave his daughter in marriage and she was attended by Miss Judith Lambert as maid of honor and Mrs. Peggy Phillips, Misses Virginia Wells and Jeanine Goatley, her sister, as bridesmaids. Dr. John N. Ferris of East Lansing, Mich., served as his brother's best man, and ushering were Messrs. Robert Peterson, George Record, Howard Higgins, Howard Phillips and Larry Swank.

Mrs. Ferris, a Registered Nurse, attended Louisiana State University and is a graduate of West Suburban Hospital School of Nursing, Oak Park, Ill. She has been employed at the U. S. Army Hospital, Camp Leroy Johnson. Her husband, who is a graduate of Purdue University, has been serving as Executive Officer of the 562d Transportation Co., at Camp Leroy Johnson, as well as Troop Information Officer.

After 1 November, the couple will be at home at Milton.

HARRIS-OGDEN — Mr. and Mrs. David H. Ogden of Oaklyn, N. J., announce the marriage of their daughter, Mary Ruth, to Lt. Col. William J. Harris, USA, son of Mr. and Mrs. William J. Harris of Marion, Ill., at the Post Chapel, Carlisle Barracks, Pa., in an evening ceremony 2 September.

The bride, who was given in marriage by her father, was attended by her sister, Miss Barbara Ogden, and Col. John G. Wheelock, III, served as best man for the bridegroom.

Mrs. Harris is a graduate of Cornell University and a member of the Chi Omega sorority. Her husband has been attending the Army War College at Carlisle Barracks.

After 15 October, the couple will be at home at 1300 So. Arlington Ridge Rd., Arlington, Va.

SMITH-PHELAN — Col. (USAF) and Mrs. Roger E. Phelan of Edwards AFB, Calif., have announced the engagement of their daughter, Elaine, to Lt. Robert Louis Smith, USAF, son of Mr. and Mrs. Leonard C. Smith of Bakersfield, Calif.

Miss Phelan, whose father is Chief of Staff at the Air Force Flight Test Center, attended the University of Colorado, where she was affiliated with the Pi Beta Phi sorority. Her fiancé, a graduate of the Bakersfield Junior College, is assigned to the Bomber-Transport Operations Branch of the Flight Test Center.

The wedding is planned for 12 November at Edwards AFB.

CLARKE-MILLER — St. James' Episcopal Church, Los Angeles, Calif., 27 August was the evening setting for the double ring ceremony uniting in marriage Miss Linda Louise Miller and Mr. John Shelton Clarke.

The bride is the daughter of Mr. and Mrs. Richard Miller, and the bridegroom is the son of Mrs. Leo George Clarke of 1057 Base Line Rd., Claremont, Calif., and the late Colonel Clarke.

The bride chose her sister, Miss Janice P. Miller, as her maid of honor and another sister, Miss Margaret Miller, and Miss Maura McGivney as bridesmaids, with little Misses Jennifer K. Dudley and Lee D. Groninger as flower girls and Master Noah Dudley as ring-bearer. Col. Leo G. Clarke, Jr., USAF, served as his brother's best man and groomsmen included Cadet L. G. Clarke, III, Western Military Academy, and Mr. Jere Groninger.

Mrs. Clarke is a senior student at UCLA, of which her husband is a graduate and is now a graduate student.

The couple will be at home at 11732 Darlington Ave., Los Angeles.

TURNER-BLIGHT — Miss Barbara Anne Blight, daughter of Col. and Mrs. Edward Montague Blight of Ft. Amador, C. Z., and Mr. Philip Lantz Turner, II, son of Mr. and Mrs. Turner, sr., of Shelbyville, Ill., were married at St. Luke's Episcopal Cathedral, Ancon, C. Z., 20 August.

Attending the bride, who was given in marriage by her father, were Miss Joan Nicholl as maid of honor and Misses Laureli Butters, Susan Cunha, Sylvia Johansson and Fairlee Skinner as bridesmaids, with little Miss Karen

Service Families Get Household Goods Advice From MTMA Chief

From page 2—

Management Agency has undertaken the series of seminars throughout this country and abroad prior to the effective date of the implementing regulation. It is the desire of all hands from the Secretary of Defense on down to make certain that the transportation officers who assist Department of Defense families in the movement of their household goods, and the carriers who transport them, thoroughly, completely, and uniformly understand every single aspect of the implementing regulation. During the course of these seminars, it is expected that all questions pertaining to procedure or interpretation will be answered. It is intended that the seminars will assure uniform implementation of the pertinent regulation when it becomes effective on 1 December 1960.

When the provisions of Chapter 217 become effective 1 December 1960, it is the purpose of the Military Traffic Management Agency to assure compliance with the regulation to the end that policy governing transportation of household goods of Department of Defense personnel is adhered to strictly. It is anticipated that full and genuine cooperation by shipping activities and commercial carriers alike will be afforded. In the final analysis, the success of this program will ultimately be determined by the performance of the local transportation officer and the individual carrier. Both have tremendous interest in the success of the program and both realize that they must work together in a spirit of genuine cooperation. The carrier has a vital role. His attitude, service and performance must be of the highest order. The local transportation officer deals with the owner as well as with the carrier and issues the bill of lading which covers the movement.

High Quality Of Service

The most important aspects of the new Department of Defense Directive and the regulation which implements it insofar as the Service members and their families are concerned, are the provisions which stress the high quality of service. These provisions include:

- a. The assignment of the responsibility for over-all monitoring and guidance of the program to a single agency—MTMA.
- b. A standardized quality control procedure which will require each transportation officer to continuously measure the quality of service being provided by each carrier.
- c. The provision for strong standardized procedures for the mandatory suspension of unsatisfactory carriers.
- d. The provision for the awarding of additional business to carriers who provide an exceptionally high quality of service as compared to their competi-

Butters as flower girl. Mr. E. M. Blight, Jr., brother of the bride, served as best man, and ushering were Messrs. N. Brooks Smith, Donald Nolan, Midshipman Daniel Cunha, USNA, and Lt. Donald Thomas.

Mrs. Turner, whose father is G-1 at Headquarters, U. S. Army Caribbean, attended Lake Forest College in Illinois and was graduated from the Canal Zone Junior College.

The couple will make their home at 709 W. Main St., Urbana, Ill., where the bridegroom will continue his studies at the University of Illinois Law School.

tors.

e. The provision that where other requirements have been met (use of lowest cost, qualified carriers, and distribution of traffic in equitable proportions among them to the extent practicable),

(1) A request by the property owner for non-use of a carrier because of specific prior unsatisfactory service shall be honored.

(2) A preference for a carrier expressed by the property owner shall be honored.

Best Available Service

Department of Defense personnel who are to have their household goods moved by the Government will get the best available service if they will follow one cardinal rule—"See the appropriate transportation officer as soon as possible after receipt of your orders. Rely on him as a skilled technician who has both the knowledge and desire to obtain the highest quality service possible within the reasonable aspects of the lowest cost to the Government."

The transportation officer knows the basic policy, the implementing regulation and the techniques and procedures of execution. He is well aware of all problems inherent in the movement of household goods, probably better than any one individual owner, since problems have a way of repeating themselves. The transportation officer is most intimately informed with regard to the service available and being provided by the moving industry. He personally monitors the quality control program which is designed to determine which carriers provide exceptionally high quality of service, which ones are satisfactory, which ones are marginal and which ones provide inadequate service and are suspended.

Considerations To Owner

The most important consideration of the household goods owner which the transportation officer and his staff should cover include:

- a. Responsibility of the transportation officer to the owner and the carrier both.
- b. The desires of the owner as to what is to be done to the household goods. For example, are they to go to a new location, to storage, or partially to storage and partially to a new location?
- c. Where should storage take place?
- d. When will the household goods be ready for packing?
- e. When are the household goods needed at new location?
- f. Any specific packaging of the household goods, i.e., bulk, fragility, etc.
- g. Preference in method of handling within mandatory requirements. An over-all discussion as to just how the movement will be arranged and will take place.

With the fundamental rule in mind—"See the appropriate transportation officer as soon as possible after receipt of your orders and rely on him" and with over-all familiarity with the general areas of concern listed above, every member of the Department of Defense can look forward to highly satisfactory handling of his household goods under the provisions of the new Department of Defense Directive 4500.27 and Chapter 217 of the Military Traffic Management Regulation.

RETIRED ACTIVITIES:

Hoffman Electronics Elects Captain Hull; Col. Cechmanek Joins Rocket Company

HOFFMAN Electronics Corporation board of directors has elected Capt. David R. Hull, USN-Ret., as Corporate Executive Vice President, it is announced by H. Leslie Hoffman, President.

In his newly-created position, Captain Hull, a USNA graduate, initially will have direct responsibility for the operation of Hoffman's Military Products Division and coordination of activities of the company's Santa Barbara, Calif., Science Center with other corporate divisions.

Before retirement in 1948, he specialized in UHF radio, underwater sound and radar development. His final assignment in the Navy was Assistant Chief of the Bureau of Ships for Electronics.

Col. George Cechmanek, USAF-Ret., has been appointed Corporate Counsel for Grand Central Rocket Company, Redlands, Calif., it is announced by Brig. Gen. Richard L. Scott, USAF-Ret., Secretary-Treasurer and Director of Administrative Services. The colonel's last assignment was Chief Legal Counsel for ARDC.

Colonel and Mrs. Cechmanek have recently purchased a home at 333 Marion Road, Redlands. They have one daughter, Barbara, 15.

Col. James L. Williams, USAF-Ret., who has served as Comptroller for three Air Force Commands, was Director of Public Relations for the American Military Government Command in Germany, and in civilian life in the early 1930's originated the famed Old Gold cigarette blindfold test, has been named Head of the Department of Economics at Pfeiffer College, Misenheimer, N. C.

At the time of his retirement, Colonel Williams was Comptroller for the Ninth Air Force at Shaw AFB, S. C. He spent the first year of retirement in Japan where he taught English in Japanese Schools to Japanese University students, business people and government employees. In 1955 and 1956 he and his family lived in Tokyo where he served as a Deputy CoS for the Fifth Air Force.

Capt. Lawrence Smith, USN-Ret., has joined the Carling Brewing Company as Assistant to the Vice President, Production. He had been Commanding Officer of the Navy Finance Center at Cleveland. Captain Smith, USNA '32, played varsity football and lacrosse at Annapolis. In addition, he earned a Master of Science degree in Textile Engineering at the Lowell Technological Institute, Mass., and took special courses at the Industrial College of the Armed Forces, Washington, D. C.

Maj. Robert T. Mellichamp, USAF-Ret., former Director of Communications for Civil Air Patrol's 13,500 radio stations throughout 50 states, Puerto Rico and the District of Columbia, has completed 21 years of service with retirement at Ellington AFB, Tex., and plans to remain in Houston with Goodbody and Company, a brokerage firm. His wife, the former Millie Pendarvis, of Tullos, La., is an artist in Foley's advertising department. They reside at 2001 Robinhood Street, Pasadena, Tex., and have two children, Robert, 18, and Marcia, 13.

CWO Donald M. Stone, USMC-Ret., will reside at 1621 Crestview ave., Columbia, S. C., and will work toward a Masters Degree at the University of South Carolina. He is the husband of the former Miss Myrtle Sweeney of Denver. They have one son, Donald M., III, 16.

CWO Charles O. Overstreet, chief of the personnel management team Adjutant General section, Headquarters Fourth U. S. Army, Fort Sam Houston, Tex., retired from the Army in the grade of major on 30 Aug. after 21 years service. With his wife, June, and two children, Charles, Jr., 18, and Janice, 7, he will continue to reside in San Antonio at 4319 Diamondhead.

Col. Curtis M. Anderson, USAF-Ret., former Assistant Deputy for Materiel for the Air Defense Command at Ent AFB, Colo., and his family live at 618 Diamond Dr., Colorado Springs, Colo.

Maj. Gen. James P. Cooney, MC, USA-Ret., formerly Chief Surgeon for U. S. Army Europe, and Mrs. Cooney will reside at 345 West 58 St. in New York City. General Cooney will be Vice President for Medical Affairs of the American Cancer Society.

Lt. Col. Howard E. Bottomley, USA-Ret., formerly Chief of the Public Affairs Division and Deputy Chief of Information at Continental Army Command, Ft. Monroe, Va., and Mrs. Bottomley will live in Hampton, Va. He will take education courses at the College of William and Mary in Norfolk this fall in preparation for a teaching career.

Lt. Col. John E. Harris, USA-Ret., formerly Research and Development Coordinator in the Materiel Development Section at USCONARC, and his wife, Florine, will continue living in their present home at 10 Adriatic Avenue, Hampton, Va., near Monroe. They have three children: Penny, 19; Vickie, 16; and John, Jr., 12.

Lt. Col. Walter F. Ponzar, USA-Ret., for the past five years assigned to the Continental Army Command, Ft. Monroe, Va., and his wife, Alice, with their two children, Joan, 17 and Ronald, 14, will make his home in Hampton, Va., where he plans to enter the insurance business.

LCdr. Raymond T. Diedrichsen, USN-Ret., has been named Sonar Program Supervisor for the expanding military equipment section of Southwestern Industrial Electronics (SIE), a Division of Dresser Industries, in Houston. His last duty prior to retirement was with the Chief of Naval Operations, Anti-Submarine Warfare Branch.

CWO Edwin E. Garrison, USA-Ret., formerly with the Army Field Printing Plant at Ft. Benning, Ga., will make his home at 2946 Buena Vista Rd., Columbus, Ga.

M/Sgt. Jolly C. Sartor retired from the Army as a major 30 August with 20 years military service. He had served as chief clerk of the Fourth U. S. Army Engineer Section since March, 1957. He resides at 638 Sumner Drive, San Antonio, with his wife, Roberta, and three boys, Jolly, 10, Richard, 8, and Gary, 7.

Retirement of **Col. Harold E. Todd**, Chief of Staff of Continental Air Command, has been announced by CONAC. He was presented the Legion of Merit for "exceptionally meritorious and outstanding service" during a Retirement Parade Review in his honor at Mitchell AFB, Long Island. He plans an extended tour of Mexico.

Col. Dexter K. Griffith has retired after more than 27 years service. His career ended where it began—Ft. Ord, Calif. After retirement, Colonel Griffith will reside at 55 Walnut Dr., Larkspur, Calif.

Col. Norman D. Carnes, USA, retired 31 August at Ft. Monroe, Va., after 29 years of Army service.

At a retirement ceremony, Colonel Carnes was presented the Army Commendation Medal for exceptionally meritorious service by General Bruce C. Clarke, Commanding General, USCON-ARC.

Colonel Carnes is married to the former Frances Marshall. After visiting in Xenia the Carneses will live in Denver, at 3597 Newport. They are the parents of two sons, Bruce, 15 and Dennis, 12.

CWO-2: Strong, Hubert R.

Indian, Spanish-American Veterans Get Break

Veterans of the Indian and Spanish-American Wars now may elect to receive pensions under the new pension law governing WWI, WWII and Korea veterans.

The Veterans Administration explains that pensions are now being paid to veterans of the Indian and Spanish-American Wars at a uniform rate of \$101.59 per month without regard to disability, need, income, net worth or dependents.

Among the Indian and Spanish-American War veterans in need of regular aid and attendance who receive pensions of \$135.45 per month are some who may benefit under the new pension law. These include single veterans whose annual income from other sources is not more than \$1200, and married veterans whose other income is not more than \$2000 per year. They may qualify to receive between \$140 and \$170 monthly.

The VA is reviewing the Indian and Spanish-American War pension rolls and will advise all who may benefit by electing to receive pension under the new law. The election, once made, will be irrevocable.

An election by a veteran will not affect the future rights of his wife and children, the VA explained. Widows and children of Indian and Spanish-American War veterans will continue to receive pensions under the old law.

Retired Wives Club Led By Mrs. Drysdale

Open to all wives or widows of retired officers in the Tacoma, Wash., area, the AROWS (Associated Retired Officers Wives) held their first regular meeting in March 1959. Now, well into their second year, they meet monthly for luncheon and programs as varied as the interests of today's woman . . . from flower arranging to book reports, and fashion shows to investments.

Present officers of the club are, President, Mrs. Walter Drysdale; First Vice President, Mrs. John Lutz; Second Vice President, Mrs. Herbert Callow; Secretary, Mrs. Frank Sherman; and Treasurer, Mrs. Glenn Smith.

Welcome Mrs. Stone

MRS. James J. Stone, Jr., (right) wife of the new Dobbins AFB Commander, was introduced to special guests and the Officers Wives Club at a tea held in her honor. In the photo Mrs. Isador J. Schwartz pours tea for Mrs. Stone.

Mrs. Stone, a native of Newcastle-on-Tyne, England, went to Georgia from Selfridge AFB, Mich., where her husband served as Deputy Chief of Staff for Operations with Tenth Air Force.

In the receiving line with Mrs. Stone were Mrs. John W. Nail, club vice-president; and Mrs. W. H. Wise. Mrs. Glyn Durio served as aid to the receiving line.

JANGOES And Juniors Begin Fall Season

JANGO (Junior Army-Navy Guild Organization) will begin its Fall season with a luncheon on Tuesday, 20 September, at the Crystal Room, Patton Hall, Ft. Myer, Va.

The wives of the Marine Corps will be honored at this luncheon, with Mrs. David M. Shoup, wife of the Commandant, USMC, and Mrs. Richard Rothwell as special guests. Mrs. Roland A. Lemay and Mrs. Lester Levine are hostesses for the luncheon. Mrs. Raymond S. McLain arranged the program.

Members wishing to attend may make reservations with Mrs. F. O. Hartel, TE 6-1673, prior to noon, 15 September. Junior JANGOS start their season with a tea to be given at the home of Mrs. David M. Shoup, wife of the Marine Corps Commandant, Gen. David M. Shoup, on 17 September, from 3 to 5.

Officers of the Junior JANGO Board, Miss Bobbi Boyce, President, Miss Mary Ann Doyle, Vice-President, Miss Terri Palmer, Recording Secretary, and Miss Judy Jeffers, Corresponding Secretary, together with Mrs. Shoup will receive and welcome members and guests.

Honor Parris Island Navy Relief Volunteers

One hundred-hour pins were presented to four volunteer members of the Navy Relief Society by Maj. Gen. Thomas G. Ennis, Commanding General of the Parris Island Marine Corps Recruit Depot, at his quarters during a recent "coffee."

Those honored were Mrs. R. B. Welden, wife of Commander Robert B. Welden, Depot Dental Officer; Mrs. Barbara Burckell, wife of Maj. Thomas J. Burckell, Director Recruiters School; Mrs. J. P. Normodiou, wife of Capt. Joseph P. Normodiou, Depot Housing Officer; Mrs. J. M. Barclay, wife of Maj. John M. Barclay, Assistant Depot Supply Officer.

Present were: Mrs. Vivian Harte, Chairwoman of the Society, wife of Lt. Col. Franklin J. Harte, Plans and Training Officer (s-3), of the Recruit Training Regiment and Col. John Gorman, Executive Vice President of the Society.

SCHNEIDER—Lackland AFB, Tex 26 Aug 1st Lt & Mrs William F Schneider, daughter.
SCHWETHELM—DeWitt AH, Ft Belvoir, Va 1 Sept Lt Col (USMC) & Mrs Harry F Schwetelm, daughter.
SELLAND—Ft Ord, Calif 23 Aug Capt & Mrs Glennis P Selland, 241 Tunisia Rd, Ft Ord, daughter, Sandra Lynn.
SEXTON—Travis AFB, Calif 19 Aug 1st Lt & Mrs Charles E Sexton, son.
SHANNON—Travis AFB, Calif 24 Aug Capt & Mrs Robert S Shannon, son.
SMITH—Griffis AFB, NY 18 Aug 1st Lt & Mrs Lindsey F Smith, son.
STANKELIS—West Point, NY 20 Aug 1st Lt & Mrs Anthony A Stankelis, Jr, Stewart AFB, NY, daughter, Linda Ann.
STEELE—98th GH, Neubrucke, Germany 17 Aug 2d Lt & Mrs James H Steele, son.
STRUBE—William Beaumont GH, El Paso, Tex 20 Aug 1st Lt & Mrs Richard G Strube, son.
STUART—Lackland AFB, Tex 28 Aug 1st Lt & Mrs Floyd R Stuart, daughter.
THURSTON—Ft Eustis, Va recently 1st Lt & Mrs Ancyl S Thurston, daughter.
WALTZ—Fitzsimons GH, Denver 1 Sept Capt (USAF) & Mrs Thomas A Waltz, son.
WATSON—DeWitt AH, Ft Belvoir, Va 31 Aug Maj (USAF) & Mrs Lewis E Watson, son.
WENGER—Fitzsimons GH, Denver 28 Aug 1st Lt (USAF) & Mrs Robert D Wenger, daughter.
WIDENER—DeWitt AH, Ft Belvoir, Va 27 Aug Capt (USMC) & Mrs William W Widener, daughter.
WILKINS—William Beaumont GH, El Paso, Tex 23 Aug 1st Lt & Mrs Aaron E Wilkins, son.
WILLIAMS—William Beaumont GH, El Paso, Tex 20 Aug Capt & Mrs Edwin S Williams, daughter.
WINN—William Beaumont GH, El Paso, Tex 19 Aug 1st Lt & Mrs Malcolm H Winn, son.
WYATT—William Beaumont GH, El Paso, Tex 24 Aug 1st Lt & Mrs David L Wyatt, son.
ZAMORA—Ft Eustis, Va recently 1st Lt & Mrs Emilio B Zamora, daughter.

Married

CAMPBELL-EAGER—Washington National Cathedral, Washington, DC 3 Sep Miss Mary Tydings Eager, daughter of Mrs John M Eager, Washington, & the late Brig General Eager, USA, and Mr James Sargent Campbell, son of Mr & Mrs E Riley Campbell, Chevy Chase, Md.
COULTER-LANSFORD—Post Chapel, Ft Belvoir, Va 3 Sep Miss Jayne V Lansford, daughter of Col & Mrs E O Lansford, Ft Belvoir, and Lt Carleton Coulter, 3d, son of Mrs Coulter, Jr, San Anselmo, Calif, & the late Colonel Coulter.
DICKERSON-GREENE—St Stephen's Protestant Episcopal Church, Port Washington, LI, NY 3 Sep Miss Marcia Ellen Greene, daughter of Mr & Mrs Edward Russell Greene, and Lt Michael Gregory Dickerson, son of Mr & Mrs George Graf Dickerson.
KERNAN-FLEMING—The Chapel of the Most Holy Trinity, West Point, NY 3 Sep Miss Susan Fleming, daughter of Mr & Mrs Andrew M Fleming, Jackson Heights, NY, and Lt James J Kernan, USA, son of Mr & Mrs Thomas F Kernan, Youngstown, O.

TEEGARDEN-GIEGENGACK—Roman Catholic Church of St Aloysius, Livingston Manor, NY 3 Sep Miss Lucie Therese Giegengack, daughter of Mr & Mrs Robert Giegengack, Hamden, Conn, and Ens Gary Lynn Teegarden, USNR, son of Mr & Mrs Chesley M Teegarden, Kansas City, Mo.

Died

BANNISTER—Died St Joseph's Hospital, Ft Wayne, Ind 4 Sep Mrs Dott Bannister, 77, mother of Mrs William H Bach, wife of Colonel Bach, USA, 5071 36th St, No, Arlington, Va. Also survived by one granddaughter, Sudy Bach; and one brother.
BEURKET—Died Valley Forge GH, Phoenixville, Pa 1 Sep Col George S Beurket, USA-Ret, 67. Survived by his widow, Mrs Dorothy Beurket; two daughters, Mrs Dorothy B Hill, 2507 Kirkland Dr, NE, Atlanta, Ga, & Mrs Ann B France, 60 Spook-Rock Rd, Suffern, NY; and six grandchildren. Burial West Point, NY.
CAIRNS—Died at Decatur, Ga 1 Sep, following a heart attack, Mrs Ethel Moore Cairns, 80, widow of Lt Col Douglas W Cairns. Survived by two daughters, Mrs Frances C Shupp, Decatur, with whom she made her home, & Mrs Mary C Tomlinson, 3213 No 4th St, Arlington, Va; and one son, Col Douglas M Cairns, USAF, of Maxwell AFB, Ala. Another son, Maj Gen Bogardus S Cairns, USA, Commander, Army Aviation Center, was killed in 1958. Burial Arlington National Cemetery, Washington, DC 6 Sept.
CLARK—Died Doctors Hospital, Washington, DC 3 Sep Mr Oliver H P Clark, father of Mrs Margaret C Kessler, wife of Col Robert H Kessler, 42 Ripley Dr, Redstone Arsenal, Ala. Also survived by three grandchildren, Eve, Margaret M & Robert H Kessler, Jr.
CODDINGTON—Died Sawtelle VA Hospital, Los Angeles, Calif 20 Aug Mr William W Coddington, 90, Spanish-American War veteran and father of Mrs Ruth C Revert, wife of Col A L Revert, USAF-Ret, Rt 2, Box 761A, Tucson, Ariz, & of M/Sgt L Russell Coddington, USAF-Ret. Burial Sawtelle National Cemetery.
COLEMAN—Died at her home at Culpeper, Va 3 Sep Mrs Mary G Coleman, mother of Lt Col D James Coleman, Jr, Jacksonville, Ala.
CROCKETT—Died St Petersburg, Fla 1 Sep Lt Col Robert H Crockett, 54. Survived by his widow, Mrs M Juanita Crockett, St Petersburg; and one son, Robert J Crockett, Burial Arlington National Cemetery, Washington, DC.
DENHOLM—Died Walter Reed GH, Washington, DC 1 Sep Col Charles J Denholm, DC, USA-Ret, 72. Survived by his widow, Mrs Edna G Denholm, 2480 16th St, NW, Washington; one son, Col Charles J Denholm, now in Iran; one daughter, Mrs Eunice Hodges, Paris, France; eight grandchildren & two great-grandchildren. Burial Arlington National Cemetery.
HARRIS—Died Jacksonville, Fla 31 Aug CWO Conrad G Harris, USN. Burial Arlington National Cemetery, Washington, DC.

PROJECT OSCAR:

Navy Approves Design of Flight Capsule For Subsonic and Supersonic Aircraft

The Navy has accepted and approved the design of a mockup of an integrated flight capsule, a detachable aircraft cockpit section which would provide improved environmental and increased escape and survival capabilities at both subsonic and supersonic speeds for pilots of the future.

Constructed around the actual cockpit section of an FSU-1 Crusader, the capsule mockup illustrates the equipment to be perfected in the four-phase program the Navy has contracted with Chance Vought Aeronautics on Project Oscar (Optimum Survival Containment and Recovery).

A number of advanced features to improve the pilot's efficiency have been designed into the capsule.

It provides a "shirt sleeve" environment which permits the pilot to ride unencumbered by protective equipment such as pressure suit, oxygen mask, life jacket and survival gear. A life support system, envisioned for the capsule, will be manufactured to provide the oxygen concentration and cockpit pressurization necessary for the pilot at all altitudes without pressure suits or oxygen masks. It would provide him a safe means of emergency escape from his

HUNTER—Died at his quarters at Ft Slocum, NY 5 Sep the Commandant of the US Army Chaplain School, Chaplain (Col) Wayne Lindsay Hunter, USA, 52, of a heart attack. Survived by his widow, Mrs Iola H Hunter; and one daughter, Mrs John W Haskel, Wayne, Pa. Burial Arlington National Cemetery, Washington, DC 8 Sep.

JOHNSON—Died 4 Sep Mrs Mildred T Johnson, 55, wife of Capt Richard F J Johnson, Jr, USN-Ret, 3700 Massachusetts Ave, NW, Washington, DC. Burial Arlington National Cemetery, Washington, DC.

McKEOWN—Died Gresham, Ore 11 Aug, of a coronary attack while on leave, Lt Col Howard F McKeown, CE, Chief, Military Division, Office, Sixth US Army Engr, Presidio of San Francisco. Survived by his widow, Mrs Marian G McKeown, now living with her parents at 541 SE Park Dr, Gresham; one daughter, Toby McKeown, 10; and one son, Pvt Patrick McKeown, 17, Ft Ord, Calif.

OVERTON—Died 2 Sep Maj Grace L Overton, USA-Ret, Survived by three sisters, Mrs Lawrence A Raper, Bethesda, Md, Mrs John Manison & Miss Vaughan Sproles, Houston, Tex; and one brother, the Reverend T Arthur Sproles, Houston. Burial Houston.

OWEN—Died 31 Aug Mrs Marian S Owen, wife of Mr Edward A Owen, 5615 62d Ave, East Riverdale, Md, & daughter of Col & Mrs Harry E Storms, St Petersburg, Fla. Also survived by one brother, Robert Storms, Houston, Tex. Burial Arlington National Cemetery, Washington, DC.

RICHARDSON—Died USNH, Bethesda, Md 2 Sep Capt Holden C Richardson, USN-Ret, Survived by his widow, Mrs Diana Richardson, 830 Connecticut Ave, NW, Washington, DC; one daughter, Mrs Margaret Newport, Lee, Mass; one grandson & two great-grandchildren. Burial Arlington National Cemetery.

RODDY—Died at her home at Philadelphia, Pa 30 Aug Mrs Katherine C Roddy, mother of Lt Col Francis J Roddy, Ret. Also survived by her husband, Mr John A Roddy, 2843 No 20th St, Philadelphia; two other sons; three daughters; 34 grandchildren; and three great-grandchildren.

SCARBOROUGH—Died Andrews AFB, DC 1 Sep Lt Col Rue F Scarborough, USAF. Survived by his widow, Mrs Frances Scarborough, 6106 Bock Rd, SE, Washington, DC; and his father, Mr Wilbur Scarborough, Horatio, Ark. Burial Arlington National Cemetery.

SCHWERTFEGER—Died San Bernardino, Calif 3 Aug Maj Ernest E Schwertfeger, USA-Ret, Survived by his widow, Mrs Annie Ruth Schwertfeger, 14330 School St, Baldwin Park, Calif; two daughters, Mrs Ora Mae Stafford, Riverton, Wyo, & Mrs Jean Hull, Baldwin Park; one son, M/Sgt Arthur T Schwertfeger, USA; and five grandchildren. Burial Oakdale Memorial Park, Glendora, Calif.

WYATT—Died Richmond, Va 5 Sep Maj Thomas B Wyatt, USA-Ret. Survived by one daughter, Mrs Herman S Pomfrey, Richmond; one son, Thomas F Wyatt, Raleigh, NC; and three grandchildren. Burial Arlington National Cemetery, Washington, DC.

aircraft at supersonic speeds where an ejection seat is not adequate protection.

Advanced systems of cockpit displays and pilot controls have been incorporated to simplify his tasks. The pilot will ride in a nearly horizontal position, which increases his resistance to gravitational forces without the use of conventional "G-suits."

While the capsule was under construction, the Navy tested the system of severing the cockpit section from the rest of the plane fuselage by a "belt" of shaped charges. The Naval Weapons Laboratory at Dahlgren, Virginia, made repeated tests of separating aircraft fuselages on land with such charges. It also successfully cut the capsule section from an FSU Crusader while the airplane was submerged in 10 feet of water.

In the event of an emergency during flight, the pilot will separate the cockpit section from the rest of the aircraft and descend to earth by parachutes attached to the capsule. Compartments in the cockpit will contain survival rations, tools, medical supplies and clothing appropriate for the hot or cold areas where he is flying. He will remain in the capsule on land or sea, sending out rescue messages.

Aerobee Carries Hughes "Tattle Tale" Radio To Broadcast From Ionosphere

A new emergency communications system broadcasting from a radio transmitter rocketed 300 miles into the ionosphere has been successfully tested at Eglin AFB, according to an announcement by Hughes Aircraft Company and the Air Research and Development Command.

The project, named "Tattle Tale," was being conducted by ARDC's Wright Air Development Division (WADD) to determine the feasibility of using rockets to communicate—by voice or code signal—over distances of several thousand miles in the event enemy action destroys ground networks.

Although the system was developed for the Air Force it is expected to have broad applications in the vast field of satellite communications, said Roy E. Wendahl, Hughes vice president.

"In the event of total war it can be considered probable that many of the permanent ground communications installations will be destroyed or disrupted," Wendahl continued. "Tattle Tale" is the solution we have developed for that problem."

Special electronic equipment was integrated into a Ryan Aerobee 300 sounding rocket and fired over the Eglin Gulf test range. Receiving stations were installed at Eglin; WADD, Dayton, Ohio; and the National Bureau of Standards, Boulder, Colo.

In addition to ground receiving sites,

a WADD aircraft receives a signal while flying at 40,000 feet over San Antonio, Tex.

It was explained that with the rocket, a message transmitted from 300 miles up will travel 1400 miles along the earth's curvature, and that the higher the rocket is fired the farther the message will carry.

Both voice and tone signals were broadcast at the start of the firing and continued until the rocket landed about 11 minutes later.

The Aerobee, made by Aerojet-General Corporation, utilized a solid propellant first and third stage. The second stage is liquid fueled. The communications payload is a product of the Hughes Aircraft Company.

Hughes Aircraft Company, under contract to WADD's communication laboratory, constructed the necessary electronic equipment and performed data reduction and evaluation.

MEDICAL AGENCY BUYS 371 "SHOT" GUNS

The Military Medical Supply Agency is buying 371 guns to give service people their "shots."

The jet injection guns, MMSA reports, are faster than the conventional needle method of inoculation, are less costly, easier to operate and "relatively painless."

In administering flu vaccines, for example, use of the jet gun has been credited with a saving of \$2,300 in a series of 20,000 shots—more than 10 cents per injection.

Although all Services assisted in the development and testing of the gun, this work has been centered at the Walter Reed Army Institute of Research, Washington, D. C., and the Medical Equipment Development Laboratory, Ft. Totten, N. Y.

The first practical prototype multi-dose jet injector was developed by WRAIR in collaboration with the Z&W Machine Products Company, Cleveland, Ohio, in 1952.

The WRAIR-Z&W gun led to the development of commercial multi-dose jet injection devices now in use by all Services and the standardized military model perfected by the Totten laboratory.

The Totten model is the one which has been ordered for all Services by MMSA.

Great advantage of the jet gun, in addition to reducing the cost of inoculations, is the elimination of disease dangers normally present in standard needle injections, especially the danger of hepatitis.

Essential part of the gun is a piston which forces a measured dose of vaccine through a narrow opening about .005 inches in diameter. The vaccine enters the body at a velocity of over 600 feet per second.

Cost of each gun is reported to be \$850, or approximately \$350 less than comparable devices available on the commercial market.

Using the jet gun, a corpsman can inoculate up to 1500 men in one hour.

G. R. Garritson Is USNA Brigade Commander

Grant R. Garritson, Midshipman First Class, has been named by the Superintendent of the U. S. Naval Academy, RADM. John F. Davidson, USN, to command the 3600-man Brigade of Midshipmen for the Fall period.

A total of 243 midshipmen were chosen for Brigade Officer positions for the Fall "set," and will remain in office until 22 December, when new officers will be selected for the Winter period.

Midshipmen Commander John G. Demas was appointed Deputy Brigade Commander.

B/G Watts, USAR, Joins RCA Board

Election of Brig. Gen. W. Walter Watts, USAFR, as a Director of the Radio Corporation of America is announced by RCA Chairman Brig. Gen. David Sarnoff, USAR-Ret.

General Watts, who became Chairman of the Board and President of the RCA Sales Corporation on 18 August in addition to his post as RCA Group Executive Vice President, succeeds Dr. Charles B. Jolliffe, Vice President and Technical Director of RCA. Dr. Jolliffe, who has served as a Director since 1947, reached retirement age on 1 December 1959, but continues to serve the Corporation on special assignments.

General Watts joined RCA in 1945 after wartime service as a Signal Corps Colonel in distribution and procurement. Long experienced in the sales and distribution phases of the electronics industry, he has held a broad range of executive positions of increasing responsibility in RCA.

In 1958, he was appointed to the rank of Brigadier General in the Army Reserve. He is past President of the Armed Forces Communications and Electronics Association, and a member of the Institute of Radio Engineers, the American Society of Naval Engineers, the American Relay League and the American Ordnance Association.

Fourth Army Signal Officer

Col. A. L. Burke has been named Fourth Army Signal Officer at Ft. Sam Houston, Tex., after duty at Ft. Monmouth, N. J., as Director of the Department of Specialist Training, and Director of Training and later Assistant Commandant of the Army Signal School for the past three years.

Colonel Burke, USMA '38, who holds a Masters Degree in Electrical Engineering from the University of Illinois in 1948, resides with his wife, Caribel, and children, Richard, 20, and Carol, 19, at 489 Wheaton Rd., Ft. Sam Houston.

Commands Belvoir

Maj. Gen. Walter K. Wilson, jr., has taken command of Army Engineer Center and Ft. Belvoir replacing Brig. Gen. Richard L. Jewett. General Wilson was formerly Deputy Chief of Engineers for Construction in the Office of the Chief of Engineers.

10 Sept. 1960 (Vol. 98, P. 53)

Medical Notes

Col. Conn L. Milburn, jr., Executive Officer and Director of Graduate Education of the Walter Reed General Hospital was admitted as a New Nominee to the American College of Hospital Administrators, a professional society, at the 26th annual Convocation Ceremony held in San Francisco.

Col. Frank A. Perri, MC, has been named Director of Base Medical Services and Commander, USAF Hospital, Wright-Patterson AFB, Ohio, where he had been Deputy Commander and Director of Hospital Services.

The Second Forensic Sciences Symposium to discuss problems of mutual interest to medical, legal and law enforcement officers in the Armed Forces, other governmental agencies and the civilian community, will be conducted at the Armed Forces Institute of Pathology, Washington, D. C., 8-10 November. The symposium will be composed of lectures, panels, and demonstrations of toxicological and other scientific methods used in criminal investigations.

This symposium, like the first, is designed to indoctrinate and orient hospital commanders, base and post surgeons, legal officers, military police officers, etc., along the line of forensic sciences, to enable these personnel to know when and how to utilize the pathologist, and how to better aid and assist one another in forensic cases.

Some of the topics that will be included in the three-day program are "Fingerprints and Footprints," "The Role of the Armed Forces in Criminal Investigations," "Forensic Pathology Cases," "Instrumental Deception Detection," "Psychiatry and the Law," "Rape and Sex Offenses," "Drug Addiction," "Toxicology," "Firearms Identification and Wound Ballistics," and "Court Testimony and Presentation of Evidence."

Cdr. Jacob Siegel, MSC, Officer in Charge, Navy Toxicology Unit, National Naval Medical Center, Bethesda, Md., has been commended by Rear Adm. B. W. Hogan, Surgeon General, for outstanding performance of duty. Under Commander Siegel, the Navy Toxicology Unit has made many important contributions to the success of the Navy's Polaris Program, the establishment of biological parameters in closed environmental systems, and has rendered support to other Navy Bureaus and Officers in the accomplishment of their assigned missions.

He resides at 4857 Battery Lane, Bethesda, Md., with his wife, Ruth.

KOREA TO MOSCOW

Col. George W. James, Arty., has returned from Korea where he was Executive Officer, 1st Cavalry Division Artillery and has reported for duty as PMST, University of Idaho, Moscow.

He was joined by his wife, Rose Marie, and their son, George W. James, Jr.

Maj. Harry E. Todd, TC, has been named APMST, after service at Ft. Bragg, N. C.

Major Todd was accompanied by his wife Dorothy and their three children, a daughter, Charlotta, 15, and two sons, Douglas, 12 and Gerald, 5.

USMA Grad Heads AMF New Programs Group

Charles H. Bell, a 1950 graduate of the U. S. Military Academy and formerly Customer Services Manager of the Central Region, Government Products Group, has been appointed Manager of the New Programs Group of American Machine & Foundry Company's Greenwich Engineering Division.

Mr. Bell succeeds John N. Albaugh, who has been appointed Manager of Planning of the AMF Government Products Group.

Mr. Bell's military service includes two years with the Eleventh Airborne Division at Ft. Campbell, Ky., and three years with the U. S. Army Ninth Infantry Division stationed in West Germany. He resigned from military service in 1955 with the rank of Captain.

JOURNAL CLASSIFIED

For only 14 cents a word (\$1.40) minimum, you can reach a world-wide audience through the classified advertising columns of the "Spokesman of the Services."

Wade, Euclid L., JONQUIL (EO) to CONIFER (EO).
Olson, Donald W., COMPHILSEC to BASE, Seattle.
Renfroe, John T., CGAS, St Petersburg to ESCANABA.
Lee, Harry G., GROUP, Norfolk to COMPHILSEC.
McGinnis, Robert H., jr., BASE, Boston to DEPOT, Southwest Harbor, Me.
The following assignments are conditional upon acceptance of appointment to Warrant Officer, W-1:
Bosn W-1 Robert A Jones, CGD12(Enl) to WAL-528 (Duty).
Gun W-1 John A Marino, GROUP, Norfolk (Enl) to TRASTA, Groton (Instructor).

Maj. Baity At Parris Island

Maj. Richard B. Baity has been named Reserve Liaison Officer for the Parris Island, S. C., Marine Corps Recruit Depot. He reported from Marine Corps Station, Quantico, Va., where he served as the Assistant Officer in Charge of the Reserve Liaison and Training Section.

Major Baity is the husband of the former Miss Ardis Fessler of Covington, Pa.

Chance Vought VTOL Post

L. C. Josephs, Director of Engineering for the Aeronautics Division of Chance Vought, has announced the appointment of N. W. Tillinghast as VTOL Engineering Manager.

Mr. Tillinghast formerly was employed by Ryan Aeronautical, San Diego, where he was a section chief in the flight test division working on the X-13 Vertijet and the Ryan deflected slipstream VTOL (vertical takeoff and landing) airplane.

INDUSTRY IN DEFENSE

Flight Test Center Awards Nuclear Rocket Propulsion System Contracts

AWARD of two \$500,000 contracts for research studies of nuclear rocket propulsion systems is announced by Brig. Gen. John W. Carpenter III, Air Force Flight Test Center Commander at Edwards AFB, Calif.

They went to Aerojet-General Corp., Azusa, Calif., and Thiokol Chemical Corp.'s Nuclear Division, Denville, N. J., who are to assume part of the cost.

In addition, several rocket and missile firms are expected to participate on a voluntary basis.

General Carpenter said the program is aimed at providing sound nuclear rocket propulsion system data for Air Force studies considering nuclear rocket propul-

sion from a mission standpoint.

ARDC Headquarters at Andrews AFB, Md., the center's parent organization, is responsible for developing the study.

Management responsibility was assigned to ARDC's Ballistic Missile Development Division, Inglewood, Calif.

The Flight Test Center will conduct the study and provide the required technical direction.

General Carpenter added that the program was coordinated with the NASA and AEC, and will provide propulsion system data in areas of mutual interest to those two federal agencies and the Air Force.

LIBRASCOPE HAS AEROSPACE DEPARTMENT

INCREASED activities in the field of electronic computing equipment for space vehicle and missile systems have prompted Librascope Division—General Precision, Inc., to change the name of its Airborne Equipment Engineering Department to Aerospace Engineering Department.

"Aerospace Engineering" more accurately describes the department's current and projected spectrum of interest and activities, W. E. Bratton, Executive Vice-President, stated. The department is engaged in the research, development, and manufacture of compact, lightweight electronic computing devices for use in guidance systems of space vehicles and ballistic missiles, as well as for use on airborne craft.

Mr. Bratton said that Mr. H. W. Norris will continue as the Department's Chief Engineer.

Located in Glendale, Calif., the Aerospace Engineering Department is scheduled to begin moving to new headquarters in San Marcos, Calif., within the next year. The relocation, Mr. Bratton said, will be a principal step in a projected long-range expansion program undertaken this year to keep pace with expanding operations.

Sperry Sets Up Missile Range Unit

The growing complex of equipment required to launch missiles and space vehicles—and an accompanying business potential in coordinated missile range control—is reflected in announcement of a Sperry Rand Missile Range Instrumentation group.

In making the announcement, Sperry Rand estimated the potential market for compatible range instrumentation at more than \$1 billion. Indicative of emphasis the multi-divisional Corporation is placing on this new area of technology is the fact that the majority of its divisions may be brought into the picture. Those divisions currently participating directly in the effort, however, include the Ford Instrument Company, Remington Rand UNIVAC, Sperry Gyroscope Company and Vickers, Incorporated.

According to the announcement, teams of specialists from each of these divisions have been formed to design, develop and produce compatible missile range systems.

Military Rep Named For Lockheed Service

Appointment of Joseph W. Baird as eastern military sales representative for Lockheed Aircraft Service is announced by W. H. Snyder, Director of Military Sales. Making his headquarters in Washington, D. C., Mr. Baird will handle LAS assignments throughout eastern United States.

In addition, LAS will continue to be represented in Washington, D. C. by W. D. Chandler of the LAC corporate office.

Norair Astro Systems Research

James E. Michaels, a Northrop Corporation space mechanics specialist, has been appointed Supervisor of the Astro Systems Branch, Astro Systems and Research Laboratories at the company's Norair Division, Beverly Hills, Calif.

Mr. Michaels will take over technical management for ASRL's current Air Force space system contracts and feasibility study programs.

RCA Wins Pacific Missile Test Contract

Radio Corporation of America's Electronic Products Division, Morristown, N. J., has been awarded a contract by the Army Ordnance District, Philadelphia for \$1,545,993.00 for the installation of missile testing equipment on one of the country's missile testing islands in the Pacific ocean.

The announcement was made by Col. J. G. Duncan, III, Commanding Officer of the Philadelphia procurement agency. The equipment is part of Project TRADEX, long range missile test flights and is the second phase of the project.

North American T-39 Test Program Speeded By Close Work Of AF-Industry

How close cooperation between the Air Force and the manufacturer is speeding up the operational status of new equipment was told this week by Brig. Gen. John W. Carpenter, III, commander of the Air Force Flight Test Center at Edwards AFB, Calif., in reporting rapid progress on the North American Aviation's T-39 Sabreliner test program.

At the same time General Carpenter announced the composition of the T-39 Joint Test Force with Maj. Ralph C. Blackwell of the AFFTC Flight Test Engineering Division as Test Director.

Major Blackwell pointed out that North American test pilots had made the first production test flight of the twin-jet utility trainer in late June, and that his Assistant Test Director, Capt. Tommie D. Benefield, already had flown as co-pilot on a subsequent North American test flight. Air Force test pilots normally test new aircraft when the contractor completes his tests and turns the craft over to the Air Force.

Members of the T-39 Joint Test Force are:

Major Blackwell, Test Director; Captain Benefield, Assistant Test Director; Capt. John K. Campbell, Project Test Pilot; Mr. M. H. Yancey, Flight Test Engineer; Lt. John H. Leighton, Asst. Flight Test Engineer; Lt. Stewart Hart-

Industrial College Course Available

A correspondence study course, "The Economics of National Security" is being offered without charge by the Industrial College of the Armed Forces to qualified military and civilian personnel.

It is open to (1) military officers of all components of the Department of Defense and the Coast Guard, serving on active or inactive status in the grade of major or lieutenant commander or higher, and to (2) Federal employees with ratings of GS-11 or higher. A college education or its equivalent is highly desirable. Persons who do not meet these requisites but have compensating education and experience may be accepted for enrollment. All applicants are considered on their individual merits, the college said.

Operating under the direction of the JCS, the Industrial College conducts courses of study in the economic and industrial aspects of national security under all conditions and in the context of both national and world affairs, giving due consideration to the interrelated military, logistical, administrative, scientific, technological, political, and social factors affecting national security.

The correspondence course is based on the 10-month resident course conducted by the College at Ft. McNair, Washington, D. C., for selected military officers and civilian personnel to enhance their preparation for important command, staff, and policymaking positions in the national and international security structure. The correspondence version consists of 22 bound volumes organized into five integrated units of study: Background Information; Resources and Facilities; Processes in the Economics of National Security; Foreign Aspects of National Security; and Problems of National Security. It generally takes about one year to complete all units. A certificate of completion is issued to everyone who satisfactorily completes the full course, and a report to that effect is submitted to the appropriate authorities for inclusion in individual records.

Reservists not on extended active duty may earn a total of 48 credit points for retention and retirement purposes.

Qualified personnel are urged to consult the local education services or civilian personnel offices to obtain application forms and further information or to apply directly to the Commandant, Industrial College of the Armed Forces, Washington 25, D. C., ATTN: Correspondence Course Division.

Chance Vought Unit Builds Neptune Tails

The Aeronautics Division of Chance Vought has received a \$1.2 million contract from Lockheed Aircraft Corporation to produce 27 tail assemblies for the P2V-7 Neptune aircraft.

The contract follows an order for 33 tail assemblies received earlier this year by the Vought Division in Dallas.

Vought's Aeronautics Division is serving as a subcontractor for approximately 20 other aircraft companies on programs of varying size. These contracts include projects ranging from wind tunnel research to analog and digital computer work and from B-58 and F-105 parts to engineering designing and testing.

Chance Vought Names New Vice President

Gifford K. Johnson, veteran Chance Vought executive and a key man in the company's recent diversification activities, has been named executive vice president, it is announced by F. O. Detweiler, president of Chance Vought Aircraft, Inc.

The new executive vice president, he said, will function as a line officer of the company, directly responsible to the president for the operations of Chance Vought's divisions and subsidiaries. Finance and various corporate staff operations, including business planning, public relations, and the Washington and foreign offices, will continue to report directly to the president.

Aeronutronic Fills Two Space Posts

Two appointments in Space Technology Operations at Aeronutronic Division of Ford Motor Company, Newport Beach, Calif., are announced by Dr. Donal B. Duncan, STO General Operations Manager.

B. William Miller has been named Manager of Marketing and Robert C. Evans was appointed Manager of Prototype Fabrication.

Before joining Aeronutronic recently, Mr. Miller was Executive Systems Engineer for Litton Industries, Beverly Hills, Calif., where he was concerned with the areas of guidance, computers and data processing.

Mr. Evans formerly was Manager of the Western Office, Customer Representation Staff for Ford's Defense Products Group. He is a former Air Force lieutenant colonel.

TEMCO Aerosystems Gets More Work

More than \$7 million in classified contracts have been awarded to Ling-Temco Electronics, Inc., Chairman of the Board Robert McCulloch has announced in Dallas.

Airborne electronic digital timing systems and complete digital data handling systems have been introduced to military markets by TEMCO Aerosystems, the division which will do the work on the new contracts.

One of the division's classified projects which has been publicized is participation as a team member in the AN/USD-7 project, an electronic weapons system development for which Airborne Instruments Laboratory of New York is prime contractor and team leader.

The previously unannounced contracts increase to more than \$19 million the new business announced since 12 July by TEMCO Aerosystems, a division of Temco Electronics & Missiles Co., subsidiary of Ling-Temco Electronics, Inc.

The work involves production, installation of equipment and flight testing.

"Some of this work brings to the production line projects which division engineers have had in design and prototype development for more than a year," said E. Fred Buehring, TEMCO Vice President and Division Manager.

He said details of the follow-on contracts cannot be revealed because they involve security. He also said the contracts "are not necessarily the total effort now in progress" at the division's facility in Greenville, Tex., "nor is the dollar value stated any indication of past or projected amounts involved in any specific group of programs."

Currently the division is moving into a new \$475,000 building with 20,000 square feet of floor space for engineering offices, laboratories and experimental shops for the growing department primarily engaged in the aerosystems projects.

Work also is starting on a \$250,000 extension to a large cantilever type production hangar which will be 770 feet long with sufficient width and vertical clearance to house aircraft as large as the Air Force B-52.

Korea Logistical Command Chief Stresses That "The Compass Points North"

From first page—

sonal observations, he ordered the organization of a logistical command. Limitations on personnel and an austere funding program required the new command to be formed from within resources available to the Eighth United States Army.

Slim Army Staff

The purposes of establishing a logistical command in Korea were twofold. First, to provide the best possible administrative and logistical support to the military forces; second, and just as important, to slim the Eighth Army staff to a policy and planning group, making it highly flexible and immediately responsive to the demands of tactical operations.

With this purpose in mind, the 7th Logistical Command (C), which had been activated on paper 1 July 1959, became operational on 1 April 1960. Its mission: provide logistical and administrative support to all US and UN Forces in Korea, plus additional support to the Republic of Korea Army, as directed.

When this command became operational, there were about 150 logistical and administrative type units scattered throughout South Korea. In addition, there were area commands, supply depots and miscellaneous activities all reporting directly to Eighth Army. Our first job was to streamline the troop structure and provide a simple, yet responsive chain of command. Seeking to avoid duplication and unnecessary reporting, these 150 units and activities are now grouped into 32 commands directly responsible to this headquarters.

Geographical responsibility and "installation type" support, for the area south of the corps and division rear boundaries, is divided between three commands. These are the Seoul, ASCOM, and Pusan Area Commands. Technical service units and depots are grouped under appropriate technical service major units, and function under the normal staff supervision provided by this headquarters.

Staff Responsibilities

Differing from the usual type "C" logistical command headquarters, with a directorate staff, ours is presently similar to a "G" staff. The Assistant Chief of Staff for Administration has responsibility for personnel and administration. The ACoS for Operations and Security, as his title implies, is responsible for plans, training, operations and

intelligence matters. The ACoS for Logistics is extremely busy with responsibility for all classes and services of supply to include procurement, storage, maintenance, issue and recovery. In addition, real estate and construction are included in his responsibilities. Budget and fiscal matters are handled by the Comptroller, and the usual special staff rounds out the headquarters.

While the primary mission of any logistical command is to provide support for tactical forces, certain features of this unit are unique. Organized specifically to meet the situation in Korea, it acts as a Theater Supply Agency and an Army Supply Agency. It furnishes supplies and services direct to supply points, to direct support units, as well as to corps and division distribution points. In addition, the 7th Logistical Command has many other responsibilities, including court martial jurisdiction, police activities, signal communications, transportation, etc., that are inherent in the operation of numerous supply depots, posts and other types of military installations.

Within the tactical zone of responsibility of the corps and divisions, the Logistical Command performs such functions as repairs and utility work, finance and accounting, civilian personnel administration, commercial transportation and military construction.

Problems Are Numerous

As in any command, our problems are numerous. The climate and terrain are a constant factor in planning. The hot, humid Summer, with the annual rainy season, produces problems in overcoming deterioration in shipment and storage of supplies. Flash floods destroy or damage bridges and roads, reducing truck and sometimes rail traffic. The severe winters with snow and extremely low temperatures, particularly in the north, demand consideration in handling, transporting and storing materials and equipment. Terrain presents many limitations. High, steep mountains form barriers to cross-country movement, channelizing rail and road nets into narrow, twisting valleys.

I am certain of our ability to overcome any problem. The officers and men of this command have exhibited a real aptitude for the science of logistics. We are fortunate in having an excellent civilian workforce. Department of the Army civilian employees occupy many key positions. They provide that important factor of continuity so difficult to achieve in short military tour areas. Korean National employees are doing an

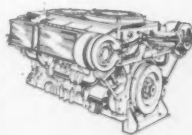

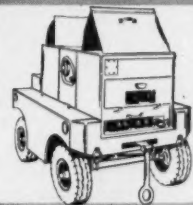

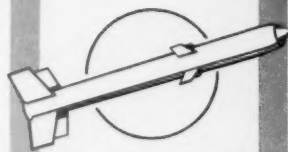

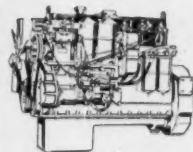

outstanding job. They learn quickly and are readily adaptable to many areas of employment. They are fully utilized in all types of employment ranging from cargo handler, security guard, clerk typist, to dental technician.

We are continuing to work on reorganization of units to eliminate unnecessary or duplicating functions. Another objective is maximum use of KATUSA (Korean Augmentation to the United States Army) personnel, as well as utilization of Korean Army units to augment or replace United States logis-

tical personnel and units needed elsewhere. U. S. military spaces made available by these actions are used to bolster American combat units.

I have repeatedly stressed to all personnel in the command that the "Compass Points North," and that the only reason for the existence of our organization is to provide our fighting units with the supplies and services needed to repel any aggression by the Communists. I am confident of our ability to meet any demands that the tactical situation may require.

THE R&D CAPABILITIES BEHIND THESE PRODUCTS ARE OPEN TO YOU

CAE invites your inquiries, and points to past performance as the best indication of what it can do for YOU.

When you entrust a research and development project to CAE, you tap a vast reservoir of specialized experience—enlist technical knowhow of a very special sort. CAE's record of accomplishment is typified by, but by no means limited to, the five units illustrated. Physical facilities implementing its skills are unsurpassed. They include modern-to-the-minute laboratories—computing, electronic, chemical, metallurgical, fuel metering, stress, and component testing—complete environmental facilities—equipment amply adequate for all phases of the job.

CAE IS ALSO EQUIPPED FOR A WIDE VARIETY OF SUB-CONTRACTING OPERATIONS. DETAILED INFORMATION ABOUT ITS PRODUCTION FACILITIES WILL BE SENT ON REQUEST.

Fighter Ace Association Will Be Formed

MORE than 350 American aces have been invited to attend the Air Force Association Convention at San Francisco 21-25 September—the first time that top combat flyers from all Services will gather under one roof.

Members of the group, each of whom has five or more enemy aircraft to his credit, will come to San Francisco for all parts of the world to found the first Fighter Ace Association, which will affiliate with the Air Force Association.

Pending convention election, Col. Walker Mahurin, McDonnell Aircraft executive and noted European and Korean Theater ace, and James L. Brooks, North American test pilot and former North African ace, will serve as acting co-chairmen of the Fighter Ace Association.

Also invited to serve on a temporary board of directors are Col. Francis S. Gabreski who in England and later in Korea downed 37½ enemy aircraft, and as the top living ace of all services, was awarded 12 DFC's; Brig. Gen. John C. Meyer, 24 air-to-air victories with 8th Air Force during World War II now stationed at Westover AFB, Mass.; and Col. Donald J. M. Blakeslee, former pre-WW II Eagle Squadron ace, who with 15 aircraft to his credit, also flew more combat missions than any combat pilot. He flew between 400 and 500 sorties and has more than 1,000 combat flying hours. At one time, he directed close to 800 aircraft into battle from the cockpit of his fighter plane. He is now stationed at Langley AFB, Va.

Brig. Gen. Willard W. Millikan, a past regional vice president of the AFA, scored 13 enemy knockdowns with 8th Air Force in Europe and later set a new transcontinental air speed record in 1954, flying an F-86 Sabrejet.

The first American ace to get his "five-down" in one mission, Maj. Ralph "Hoot" Gibson, has also been invited to serve on the board. He flew with Chennault's "Flying Tigers" in China and is still on active duty at Nellis AFB, Nevada.

The ace most instrumental in organizing this project for the new Fighter Ace Association, Col. George F. Ceuleers, will also attend on absence from the National War College in Washington. Colonel Ceuleers destroyed 14 fighter aircraft and was one of the first aces during World War II to knock down a German ME-262 jet using a conventional P-51 propeller-type aircraft. He downed the jet after an air battle that covered 200 miles across Europe.

MARINES WILL NAME NEW REGULARS

THE Marine Corps has scheduled two augmentation programs for junior officers. A board will convene at Headquarters in February to select officers for Regular Marine Corps appointments under the first program. These will include Reserve ground officers of year group 1955 who are captains or have been selected for captain and Reserve ground officers of year groups 1958 and 1959.

The second program, for which selections will be made the following June, will include Reserve ground officers and naval aviators in year group 1956 who are or have been selected for captain and Reserve naval aviators of year groups 1958 and 1959.

Augmentation details are told in Marine Corps Order 1120.14.

Army Surgeon General Reorganizes Office; Five Directorates Created

Lt. Gen. Leonard D. Heaton, Army Surgeon General, has ordered a reorganization of his office.

The new structure and titles in the Office of the Army Surgeon General closely parallel those in the Office of the Air Force Surgeon General, Maj. Gen. O. K. Niess.

Under the new plan now in effect, most divisions in the Surgeon General's Office will be consolidated into five directorates: Personnel and Training; Plans, Supply and Operations; Comptroller; Professional Service; and Administration and Support Service.

ministration and Support Service.

Army Dental Chief, Maj. Gen. Joseph L. Bernier, will hold the title of Assistant For Dental Services in place of his old title of Chief of the Dental Division.

Brig. Gen. R. McNellis, Veterinary Corps Chief, will hold the new title of Assistant For Veterinary Services.

The top dental and veterinary titles are the same as those used in the Air Force.

Each of the five new directorates will report directly to the Surgeon General.

Also reporting directly to the Surgeon General will be the Assistants for Dental and Veterinary Services, Inspector General, Special Assistants to the Surgeon General, Chief of the Nurse, Medical Service and Medical Specialist Corps and the General Counsel.

Following, listed with the heads of directorates, are the divisions for which each will be responsible:

Personnel and Training, Col. Howard Doan: Military Personnel, Civilian Personnel, Manpower Control, Training.

Plans, Supply and Operations, Col. James T. McGibony: Plans, Supply, Operations.

Comptroller, Mr. Neptune Fogelberg: Accounting Policy and Internal Review, Budget, Finance and Accounting, Review and Analysis, Special Activities.

Professional Service, Brig. Gen. Robert E. Blount: Consultant, Preventive Medicine, Physical Standards.

Administration and Supportive Service, Col. John H. Voegtly: Administrative, Medical Statistics, Technical Liaison, and the Legal, Security and Provost Marshal Offices.

Intelligence Men

MAJ. GEN. Richard G. Prather, left, Army Intelligence Center CG, chats with Capt. B. E. Wigglin, Director of the Naval Intelligence School. Captain Wigglin and Cdr. Robert Tower, Deputy Director, Naval Intelligence School, toured the Army Intelligence Center at Ft. Holabird, Md.

Dr. Schwab Leaves Army

Dr. John L. Schwab, Special Assistant to the Army Director of Research and Development, resigned effective 1 September to accept a position with private industry.

Dr. Schwab, 45, became special assistant to Mr. Richard S. Morse, Army Director of Research and Development, 25 November 1959. He formerly was Deputy Commander for Scientific Activities of the Army Chemical Corps Research and Development Command.

Three Join USAFA Faculty

Three instructors have been added to the teaching staff of the Department of Chemistry at the U. S. Air Force Academy. They are Capt. Robert W. Lamb and 1st Lts. Tyree Newton and Vernon R. Van Vonderen. Both Lamb and Van Vonderen recently completed graduate study at the University of Colorado, Boulder. Lieutenant Newton's previous assignment was as an instructor-pilot at James Connally AFB, Waco, Tex.

Navy Sub-Hunters guided by Ryan C-W doppler navigation

No weapon is more elusive than the modern submarine. For the vital task of detecting these underwater craft, the Navy equips almost every type of anti-submarine aircraft with today's most advanced *proven* type of aerial navigation—Ryan continuous-wave doppler systems.

The world's leader in the design and manufacture of continuous-wave doppler systems is Ryan Electronics. In production are Ryanav* doppler navigation systems which provide complete, accurate navigation information in all weather conditions, over water

or land. And, equally important, this information is supplied without the aid of ground stations or outside data.

This is why—in bombing, reconnaissance, mine-laying and airborne-early-warning missions as well as in submarine detection—many Navy aircraft are guided by Ryanav doppler systems from Ryan Electronics.

Ryan Electronics is at work in many fields, creating advanced equipment for today's aircraft and preparing for the navigation and guidance of the space vehicles of tomorrow. In Electronics, too—Ryan Builds Better.
